

DO NOT OPEN THIS TEST BOOKLET UNTIL YOU ARE ASKED TO DO SO**TEST BOOKLET SERIES****Test Code:
2208****TEST BOOKLET
GENERAL STUDIES
TEST – 8****D****Time Allowed : Two Hours****Maximum Marks : 200****INSTRUCTIONS**

1. IMMEDIATELY AFTER THE COMMENCEMENT OF THE EXAMINATION, YOU SHOULD CHECK THAT THIS TEST BOOKLET *DOES NOT* HAVE ANY UNPRINTED OR TORN OR MISSING PAGES OR ITEMS, ETC. IF SO, GET IT REPLACED BY A COMPLETE TEST BOOKLET.
2. ENCODE CLEARLY THE TEST BOOKLET SERIES CODE **A, B, C** OR **D** AS THE CASE MAY BE IN THE APPROPRIATE PLACE IN THE ANSWER SHEET.
3. You have to enter your Roll Number on the Test Booklet in the Box provided alongside this line. *DO NOT* write *anything else* on the Test Booklet.
4. This Test Booklet contains 100 items (questions). Each question is printed both in **Hindi** and **English**. Each item comprises four responses (answers). You will select the response which you want to mark on the Answer Sheet. In case you feel that there is more than one correct response, mark the response which you consider the best. In any case, choose **ONLY ONE** response for each item.
5. You have to mark all your responses **ONLY** on the separate Answer Sheet provided. See directions in the Answer sheet.
6. All items carry equal marks.
7. Before you proceed to mark in the Answer Sheet the response to various items in the Test Booklet, you have to fill in some particulars in the Answer Sheet as per instructions sent to you with your admission certificate.
8. After you have completed filling in all your responses on the Answer Sheet and examination has concluded, you should hand over to the Invigilator *only the Answer Sheet*. You are permitted to take away with you the Test Booklet.
9. Sheets for rough work are appended in the Test Booklet at the end.
10. **Penalty for wrong answers:**
THERE WILL BE PENALTY FOR WRONG ANSWERS MARKED BY A CANDIDATE IN THE OBJECTIVE TYPE QUESTION PAPERS.
 - (i) There are four alternatives for the answer to every question. For each question for which a wrong answer has been given by the candidate, **One-Third** of the marks assigned to that question will be deducted as penalty.
 - (ii) If a candidate gives more than one answer, it will be treated as a **wrong answer** even if one of the given answers happens to be correct and there will be same penalty as above to that question.
 - (iii) If a question is left blank, i.e., no answer is given by the candidate, there will be no **penalty** for that question.

DO NOT OPEN THIS TEST BOOKLET UNTIL YOU ARE ASKED TO DO SO*Note:* Hindi version of the instructions is printed on the front cover of this Booklet.

1. Consider the following statements:

1. (b)

Explanation:

- Gandhiji proposed that the Non Cooperation movement should unfold in stages.
- It should begin with the **surrender of titles that the government awarded, and a boycott of civil services, army, police, courts and legislative councils, schools, and foreign goods.**
- Then, in case the government used repression, a **full civil disobedience** campaign would be launched.
- Through the summer of 1920 Mahatma Gandhi and Shaikat Ali toured extensively, mobilising popular support for the movement.
- Many within the Congress were, however, concerned about the proposals. They were reluctant to boycott the council elections scheduled for November 1920, and they feared that the movement might lead to popular violence.
- In the months between September and December there was an intense tussle within the Congress. For a while there seemed no meeting point between the supporters and the opponents of the movement.
- Finally, at the Congress session at **Nagpur in December 1920**, a compromise was worked out and the Non-Cooperation programme was adopted. **Hence, statement 1 is NOT correct.**
- The movement started with middle-class participation in the cities. Thousands of students left government-controlled schools and colleges, headmasters and teachers resigned, and lawyers gave up their legal practices.
- The council elections were boycotted in **most provinces except Madras, where the Justice Party, the party of the non-Brahmins**, felt that entering the council was one way of gaining some power – something that usually only Brahmins had access to. **Hence, statement 2 is correct.**

2. (a)

Explanation:

- After more than 50 years, **Indian and Bangladesh** started regular freight train operations through the restored **Haldibari-Chilahati rail route** recently. **Hence, statement 1 is correct.**
- It will strengthen railway connectivity and bilateral trade between the two countries.
- After the Partition in 1947, **seven rail links** were operational between India and Bangladesh (then East

Pakistan) until 1965. The Haldibari-Chilahati rail link is one such route that was operational till 1965. **Hence, statement 2 is NOT correct.**

- Presently, five rail links between Bangladesh and India are operational. They are as follows:

- 1) Petrapole (India)-Benapole (Bangladesh)
- 2) Gede (India)-Darshana (Bangladesh)
- 3) Singhabad (India)-Rohanpur (Bangladesh)
- 4) Radhikapur (India)-Birol (Bangladesh)
- 5) Haldibari (India)-Chilahati (Bangladesh)

- Both countries are committed to reviving all the pre-1965 railway links between India and Bangladesh.
- The restoration work to revive the Haldibari-Chilahati rail link was undertaken by the **railways of both nations.** **Hence, statement 3 is NOT correct.**
- The items that can be exported through this rail route from India to Bangladesh include stones and boulders, fresh fruits, foodgrain, chillies, onion, garlic, ginger, fly ash, chemical fertilizer, limestone, wood and clay. All exportable supplies are allowed from Bangladesh to India.

3. (c)

Explanation:

Sergeant Plan of Education

The Sergeant Plan (Sergeant was the educational advisor to the Government) was worked out by the Central Advisory Board of Education in 1944.

It recommended—

1. **Pre-primary education** for 3-6 years age group;
 - (a) **free, universal and compulsory elementary education** for 6-11 years age group;
 - (b) high school education for 11- 17 years age group for selected children, and
 - (c) a university course of 3 years after higher secondary;
 - (d) high schools to be of two types: (i) **academic** and (ii) **technical and vocational.** **Hence, statement 2 is correct.**
2. Adequate technical, commercial and arts education.
3. Abolition of intermediate courses.
4. Liquidation of adult illiteracy in 20 years. **Hence, statement 1 is correct.**
5. Stress on teachers' training, physical education, education for the physically and mentally handicapped.

4. (b)

Explanation:

- **Khadi and Village Industries Commission (KVIC)** recently secured Patent registration for its innovative Plastic-mixed Handmade Paper developed to reduce plastic menace from nature. **Hence, statement 1 is NOT correct.**
- The plastic-mixed handmade paper; which is recyclable and eco-friendly, was developed under **Project REPLAN (REducing PLastic from Nature)**. **Hence, statement 2 is correct.**
 - The project was launched in September 2018 as part of KVIC's commitment to Swachh Bharat Abhiyaan.
 - It aims to make carry bags by mixing processed and treated plastic waste with cotton fibre rags in the ratio of 20:80.
 - This is the **first of its kind project in India**, where plastic waste is de-structured, degraded, diluted, and used with paper pulp while making handmade paper and thus reduces plastic waste from nature.
- The technology developed by KVIC **uses both high & low-density waste polythene** that not only **adds extra strength** to the paper but also **reduces the cost** by up to 34%. **Hence, statement 3 is NOT correct.**
- The production of waste-plastic mixed handmade paper is likely to serve the twin objectives:
 - 1) Protecting the environment
 - 2) Creating sustainable employment
- KVIC has developed products such as carry bags, envelopes, files/folders, etc. using plastic mixed handmade paper.

Khadi and Village Industries Commission (KVIC):

It is a statutory body established under the **Khadi and Village Industries Commission Act, 1956**.

- It is charged with the planning, promotion, organisation, and implementation of programmes for the development of Khadi and other village industries in the rural areas in coordination with other agencies engaged in rural development wherever necessary.
- It functions under the **Ministry of Micro, Small and Medium Enterprises**.
- **Some other initiatives associated with KVIC:**
 - Honey Mission

- Project BOLD
- Leather Mission
- Gramodyog Vikas Yojana
- Kumhar Sashaktikaran Yojana (KSY)

5. (c)

Explanation:

- The 'Alipore Bomb Case' was **"the first state trial of any magnitude in India"**.
- The British Government arrested **Sri Aurobindo**, a prominent Nationalist Leader at the time, **Barindra Ghose**, and many young revolutionaries.
- They were charged with "Conspiracy" or "waging war against the King" - the equivalent of high treason and punishable with death by hanging.
- It was **Chittaranjan Das who defended Aurobindo Ghosh** in this trial. The case dragged on with preliminary hearings in the Magistrate's court, involving 1000 artifacts as evidence and 222 witnesses followed by a trial in Sessions Court, involving 1438 exhibits and 206 witnesses. **Hence, option (c) is correct.**
- During this period, the under-trial prisoners were illegally held in the Presidency Jail under torturous conditions (including solitary confinement).
- The judgment was finally delivered by **Judge Beachcroft on 6 May 1909** after a protracted trial of one year.
- **Sri Aurobindo was acquitted of all charges** with the Judge condemning the flimsy nature of the evidence against him.
- Of the thirty-seven prisoners on trial, Barindra Ghose, as the head of the Secret society of revolutionaries and Ullaskar Dutt, as the maker of bombs, were given the death penalty (later commuted to transportation for life), seventeen others were given varying terms of imprisonment or transportation and the rest were acquitted.

6. (d)

Explanation:

- The causal forces and factors for the success of the British in India are as follows.

I. Superior Arms, Military and Strategy - The firearms used by the English, which included muskets and cannons, were better than the Indian arms both in the speed of firing and in range. On realising this, many Indian rulers imported

641, 1st floor, Mukherjee
Nagar, Delhi 110009

21, Pusa Road,
Karol Bagh, New Delhi

13/15, Tashkent Marg, Near
Patrika Chauraha, Civil Lines, Prayagraj

Plot No. 45-45A, Harsh Tower 2
Tonk Rd, Vasundhara Colony, Jaipur

3

Phone : 8448485518, 011-47532596, 8750187501 :: www.drishtiIAS.com

European arms and employed European officers to train their troops but unfortunately, the Indian military officers and the ranks could never match the English officers and English armies. **Hence, statement 1 is correct.**

II. Better Military Discipline and Regular Salary -

A regular system of payment of salaries and a strict regime of discipline were the means by which the English Company ensured that the officers and the troops were loyal. On their part, most of the Indian rulers did not have enough money to pay salaries regularly.

III. Civil Discipline and Fair Selection System -

The Company officers and troops were given charge on the basis of their reliability and skill and not on hereditary or caste and clan ties. In contrast, the Indian administrators and military officers were appointed on the basis of caste and personal relations, often disregarding merit and ability. **Hence, statement 2 is correct.**

IV. Brilliant Leadership and Support of Second Line Leaders -

Clive, Warren Hastings, Elphinstone, Munro, Marquess of Dalhousie, etc., displayed rare qualities of leadership. The English also had the advantage of a long list of secondary leaders like Sir Eyre Coote, Lord Lake, and Arthur Wellesley who fought not for the leader but for the cause and the glory of their country. The Indian side too had brilliant leaders like Haidar Ali, Tipu Sultan, Chin Kulich Khan, Madhu Rao Sindhia, and Yashwant Rao Holkar, but they often lacked a team of second-line trained personnel. Moreover, the Indian leaders were as much fighting against one another as against the British. The spirit of fighting for a united cause was not their motivation. Thus they often supported the British against neighbouring rulers. The **consciousness of 'India' was lacking. Hence, statement 3 is correct.**

V. Strong Financial Backup -

The income of the Company was adequate enough to pay its shareholders handsome dividends as also to finance the English wars in India. Furthermore, England was earning fabulous profits from its trade with the rest of the world. This vast amount of resources in money, materials, and men was available to the

British in times of need, due to their superiority in sea power. **Hence, statement 4 is correct.**

VI. Nationalist Pride -

An economically thriving British people believing in material advancement and proud of their national glory faced the 'weak, divided-amongst-themselves Indians' bereft of a sense of unified political nationalism. The lack of materialistic vision among Indians was also a reason for the success of the English Company. **Hence, statement 5 is correct.**

7. (a)

Explanation:

- The **first part** of its Sixth Assessment Report (AR6) titled **Climate Change 2021: The Physical Science Basis** was recently released by the Intergovernmental Panel on Climate Change (IPCC).
 - It is prepared by the scientists of Working Group-I. The two remaining parts would be released in 2022.
 - It noted that global net-zero by 2050 was the minimum required to keep the temperature rise to 1.5 degrees Celsius. **Hence, statement 1 is correct.**

Key findings of the report:

- The average surface temperature of the Earth will cross 1.5 °C over pre-industrial levels in the next 20 years (By 2040) and 2°C by the middle of the century without a sharp reduction of emissions. **Hence, statement 2 is correct.**
- The last decade was hotter than any period in the past 1,25,000 years. The global surface temperature was 1.09°C higher in the decade between 2011-2020 than between 1850-1900.
- This is the first time that the IPCC has said that the **1.5°C warming** was inevitable even in the best-case scenario.
- **CO₂ emissions are the highest in at least two million years.** Humans have emitted 2,400 billion tonnes of CO₂ since the late 1800s. Most of this can be attributed to human activities, particularly the burning of fossil fuels.
- Sea-level rise has tripled compared with 1901-1971. The Arctic Sea ice is the lowest it has been in 1,000 years.

Copyright – Drishti The Vision Foundation

- Coastal areas will see continued sea-level rise throughout the 21st century, resulting in coastal erosion and more frequent and severe flooding in low-lying areas.
- Every additional **0.5 °C** of warming will increase hot extremes, extreme precipitation, and drought. Additional warming will also weaken the Earth's carbon sinks present in plants, soils, and the ocean. **Hence, statement 3 is NOT correct.**
- Heat extremes have increased while cold extremes have decreased, and these trends will continue over the coming decades over Asia.
- Global Warming will have a serious impact on mountain ranges across the world, including the Himalayas.
- The freezing levels of mountains are likely to change and snowlines will retreat over the coming decades.
- Retreating snowlines and melting glaciers is a cause for alarm as this can cause a change in the water cycle, the precipitation patterns, increased floods as well as an increased scarcity of water in the future in the states across the Himalayas.
- The retreat of glaciers is now attributed to **anthropogenic factors and human influence.**

IPCC Assessment Reports:

- Every few years (about 7 years), the IPCC produces assessment reports that are the most comprehensive scientific evaluations of the state of the earth's climate.
- So far, five assessment reports have been produced, the first one being released in 1990. The fifth assessment report had come out in 2014 in the run-up to the climate change conference in Paris.
- The Assessment Reports - by three working groups of scientists.
 - Working Group-I - Deals with the scientific basis for climate change.
 - Working Group-II - Looks at the likely impacts, vulnerabilities, and adaptation issues.
 - Working Group-III - Deals with actions that can be taken to combat climate change.

8. (c)

Explanation:

- Tipu Sultan was born in **November 1750 to Haidar Ali and Fatima**. A well-educated man, he could freely converse in Arabic, Persian, Kanarese, and Urdu.

- Tipu was a great warrior and he was known as the '**Tiger of Mysore**' and gave maximum care to the raising and maintenance of an efficient military force. **Hence, statement 1 is NOT correct.**
- He organised his army on the **European model with Persian words of command**. Though he took the help of the French officers to train his soldiers, he never allowed them (French) to develop into a pressure group. **Hence, statement 2 is correct.**
- Like his father, Tipu realised the importance of a naval force. In 1796, he set up a Board of Admiralty and planned for a fleet of 22 battleships and 20 large frigates. Three **dockyards** were established at **Mangalore, Wajedabad, and Molidabad**. However, his plans did not fructify.
- Tipu was a **patron of science and technology**. He is credited as the '**pioneer of rocket technology**' in India. He wrote a military manual explaining the operation of rockets.
- He was also a **pioneer in introducing sericulture** to the Mysore State.
- Tipu was a **great lover of democracy and a great diplomat**. He gave his support to the **French soldiers** at Seringapatam in setting up a **Jacobin Club in 1797**. He ordered a salute of 2,300 cannons and 500 rockets to celebrate the occasion. Tipu himself became a member of the Jacobin Club and allowed himself to be called **Citizen Tipu**. **Hence, statement 3 is NOT correct.**
- He planted the **Tree of Liberty at Seringapatam**. **Hence, statement 5 is NOT correct.**
- He **sanctioned funds for the repair of the Sringeri Temple** and installation of the idol of Goddess Sarada (the idol had been damaged during a Maratha raid in 1791).
- Tipu despised the use of palanquins and described them as fit only for use of women and the disabled.
- He is also **credited with beginning capitalist development** at a time when feudalism was prevalent. He was a man representing multiple traditions. **Hence, statement 4 is correct.**

9. (c)

Explanation:

- **Rebellion by Naval Ratings:** On February 18, 1946 some 1100 Royal Indian Navy (RIN) ratings of HMIS Talwar went on a strike to protest against:
 - **Racial discrimination** (demanding equal pay for Indian and white soldiers)

641, 1st floor, Mukherjee
Nagar, Delhi 110009

- Unpalatable food
- **Abuse by superior officers**
- Arrest of a rating for scrawling 'Quit India' on HMIS Talwar
- **INA trials**
- Use of Indian troops in Indonesia, demanding their withdrawal.

Hence, option (c) is correct.

- The rebellious ratings hoisted the tricolour, crescent, and the hammer and sickle flags on the mast of the rebel fleet. Other ratings soon joined and they went around Bombay in lorries holding Congress flags threatening Europeans and policemen.

10. (b)

Explanation:

- The India Plastics Pact, the first in Asia, was launched in collaboration with the Confederation of Indian Industries (CII) and the World Wide Fund for Nature (WWF). **Hence, statement 1 is NOT correct.**
- The India Plastics Pact is an ambitious, collaborative initiative that aims to bring together businesses, governments and NGOs to **reduce, reuse, and recycle plastics in their value chain.**
- While the India Plastics Pact will be active in India, it will link globally with other Plastics Pacts.
- The Pact aims to transform the current linear plastics system into a **circular plastics economy** that will:
 - Reduce the use of problematic plastics in India.
 - Retain valuable materials in the economy for use in other products.
 - Generate jobs, investments and opportunities in the plastics system in India.

Hence, statement 2 is correct.

- The India Plastics Pact aims to promote **public-private collaborations** that enable solutions to eliminate the plastic waste problem in India and bring innovation to the way plastic is designed, used and reused.
- The vision, targets and ambition of the India Plastics Pact are aligned with the circular economy principles of the Ellen MacArthur Foundation's New Plastics Economy.
- The first Plastics Pact was launched in the **U.K. in 2018.**

Why does India need a Plastic Pact?

- India generates **9.46 million tonnes** of plastic waste annually.
- **40% of plastic waste** goes uncollected.
- 43% of all plastics produced in India are used for packaging, the majority of them being single-use.
- However, viewed from the angle of livelihoods, post-consumer segregation, collection and disposal of plastics make up about half of the income of 1.5-4 million waste-pickers in India.

Circular Economy:

- The circular economy is a model of production and consumption, **which involves sharing, leasing, reusing, repairing, refurbishing and recycling existing materials** and products as long as possible. In this way, the life cycle of products is extended.
- In practice, it implies reducing waste to a minimum. When a product reaches the end of its life, its materials are kept within the economy wherever possible. These can be productively used again and again, thereby creating further value.

Principles in Ellen MacArthur Foundation's New Plastics Economy:

- **It is based on three principles:**
 - Design out waste and pollution
 - Keep products and materials in use
 - Regenerate natural systems

11. (b)

Explanation:

- Indian nationalism grew partly as a result of colonial policies and partly as a reaction to colonial policies. In fact, it would be more correct to see Indian nationalism as a product of a mix of various factors:

- Understanding of Contradictions in Indian and Colonial Interests** - People came to realise that colonial rule was the major cause of India's economic backwardness and that the interests of the Indians involved the interests of all sections and classes. The nationalist movement arose to take up the challenge of these contradictions inherent in the character and policies of colonial rule.

Copyright – Drishti The Vision Foundation

II. Political, Administrative, and Economic Unification of the Country - The British created a larger state than that of the Mauryas or the great Mughals. A professional civil service, a unified judiciary, and codified civil and criminal laws throughout the length and breadth of the country imparted a new dimension of political unity to the hitherto cultural unity that had existed in India for centuries.

III. Rise of Middle-Class Intelligentsia - British administrative and economic innovations gave rise to a new **urban middle class** in towns. This class, prominent because of its education, new position, and its close ties with the ruling class, came to the forefront. The leadership to the Indian National Congress in all its stages of growth was provided by this class.

IV. Rediscovery of India's Past - The historical researches by European scholars, such as Max Mueller, Monier Williams, Roth, and Sassoon, and by Indian scholars such as R.G. Bhandarkar, R.L. Mitra, and later Swami Vivekananda, created an entirely new picture of India's past. The self-respect and confidence so gained helped the nationalists to demolish colonial myths that India had a long history of servility to foreign rulers.

V. Western Thought and Education - The introduction of a modern system of education afforded opportunities for assimilation of modern Western ideas. This, in turn, gave a new direction to Indian political thinking, although the English system of education had been conceived by the rulers in the self-interest of efficient administration. This ever-expanding English educated class formed the middle-class intelligentsia who constituted the nucleus for the newly arising political unrest.

VI. Reactionary Policies and Racial Arrogance of Rulers - Racial myths of white superiority were sought to be perpetuated by the British through a deliberate policy of discrimination and segregation. Indians felt deeply hurt by this.

VII. Role of Press and Literature - The second half of the nineteenth century saw an unprecedented growth of Indian-owned English and vernacular newspapers. The newspapers, journals, pamphlets,

and nationalist literature helped in the exchange of political ideas among nationalist leaders from different regions.

VIII. Progressive Character of socio-religious Reform Movements - These reform movements sought to remove social evils that divided the Indian society; this had the effect of bringing different sections together and proved to be an important factor in the growth of Indian nationalism.

IX. Impact of Contemporary Movements in the World - The rise of a number of nations on the ruins of the Spanish and Portuguese empires in South America, and the national liberation movements of Greece and Italy in general and of Ireland in particular deeply influenced the nationalist ranks.

Certain constitutional reforms by British Indian government were the result of a bargain out of constant struggle between nationalists and British government.

Hence, option (b) is correct.

12. (c)

Explanation:

- All the mentioned associations/sabhas were established before the establishment of the Indian National Congress in December 1885, except Indian National Liberal Federation. Hence, option (c) is correct.
- **East India Association** - It was organised by **Dadabhai Naoroji in 1866 in London** to discuss the Indian question and influence public men in England to promote Indian welfare. Later, branches of the association were started in prominent Indian cities.
- **Indian National Liberal Federation**: When the Montagu report of 1918 was made public, there was a divide in the Congress over it. The moderates welcomed it while the extremists opposed it. This led to a schism in the Congress with moderate leaders forming the "**Indian National Liberal Federation (INLF)**" in 1919. It was founded by **Surendra Nath Banerjee** and some of its prominent leaders were Tej Bahadur Sapru, S. Srinivasa Sastri and M. R. Jayakar.
- **Indian Association of Calcutta** - It was also known as the **Indian National Association** and superseded the **Indian League** and was founded in **1876** by younger nationalists of Bengal led by **Surendranath Banerjee**

and Ananda Mohan Bose. It was the **most important of pre-congress associations** and aimed to “promote by every legitimate means the political, intellectual, and material advancement of the people.” It set out to create a strong public opinion on political questions, and unify Indian people in a common political program.

- **Poona Sarvajanik Sabha** - It was founded in **1867 by Mahadeo Govind Ranade and others**, with the object of serving as a bridge between the government and the people.

13. (a)

Explanation:

- Recently, the Union Minister for Agriculture and Farmers Welfare inaugurated the world's **second-largest** refurbished state-of-the-art National Gene Bank at the National Bureau of Plant Genetic Resources (NBPGR). **Hence, statement 1 is correct.**
- Gene Banks are a **type of biorepository** which preserve genetic material. A collection of seed plants, tissue cultures etc.
 - A gene is the basic physical and functional unit of heredity. Genes are made up of Deoxyribonucleic Acid (DNA).
- The **National Gene Bank** was established in the year **1996** to preserve the seeds of Plant Genetic Resources (PGR) for future generations and can preserve about one million germplasm in the form of seeds. **Hence, statement 2 is NOT correct.**
- Presently, NGB is protecting 4.52 lakh accessions, of which 2.7 lakh are Indian germplasm and the rest have been imported from other countries.
- The NGB has **four kinds of facilities**, namely, **Seed Genebank** (-18°C), **Cryogenebank** (-170°C to -196°C), **In vitro Genebank** (25°C) and **Field Genebank**, to cater to long-term as well as medium-term conservation.
- It stores different crop groups such as cereals, millets, medicinal and aromatic plants and narcotics, etc.

National Bureau of Plant Genetic Resources (NBPGR):

- It is a nodal organisation for the management of plant genetic resources in India and functions under the control of the **Indian Council of Agricultural Research (ICAR)**.

- It is conserving seed germplasm for long-term conservation (at -20°C) in its National Genebank (NGB).
- It plans, organizes, conducts and coordinates exploration and collection of indigenous and exotic plant genetic resources. It is headquartered in **New Delhi and has 10 regional stations.**

Other storage facilities:

- The **Svalbard Global Seed Vault** in **Norway** houses the world's largest collection of seeds.
- India's seed vault is at **Chang La (Ladakh)** in the Himalayas.
- National Animal Gene Bank, established at the National Bureau of Animal Genetic Resources (NBAGR, Karnal, Haryana), has the objective of conserving the indigenous livestock biodiversity.
 - NBAGR is one of the Indian Council of Agricultural Research (ICAR) institutes.

14. (c)

Explanation:

- All India Kisan Congress was established in Lucknow in **April 1936**. It later changed its name to All India Kisan Sabha. **Swami Sahajanand**, the founder of the **Bihar Provincial Kisan Sabha (1929)**, was elected as the first president. **Hence, statement 2 is correct.**
- At the time of its founding the Viceroy of India was **Lord Willingdon (1931-1936)**. **Hence, statement 1 is correct.**
- The first session was greeted in person by Jawaharlal Nehru. Other participants included Ram Manohar Lohia, Indulal Yagnik, Jayprakash Narayan, Ahmed Din. The conference resolved to bring out a Kisan Manifesto and a periodic bulletin edited by Indulal Yagnik.
- The Kisan Manifesto considerably influenced the agrarian programme adopted by congress at its faizpur session.

15. (d)

Explanation:

- **India** overtook the United States to become the **second-most sought-after manufacturing destination globally**, driven mainly by **cost competitiveness** in the recently released Global Manufacturing Risk Index 2021.
- In last year's report, the US was in the second position while India ranked third.

641, 1st floor, Mukherjee
Nagar, Delhi 110009

Copyright – Drishti The Vision Foundation

**Global Manufacturing Risk Index:**

- It assesses the most advantageous locations for global manufacturing **among 47 countries** in Europe, the Americas and Asia-Pacific (APAC).
- The rankings in the report are determined based on four key parameters:
 - 1) Country's capability to restart manufacturing
 - 2) Business environment (availability of talent/labour, access to markets)
 - 3) Operating costs,
 - 4) Risks (political, economic and environmental)
- The index is released by the **US-based property consultant Cushman & Wakefield**. Hence, option (d) is correct.
- In the Global Manufacturing Risk Index, 2021, China remained at the number one position and the US was at third position.
- The improvement in ranking indicates the growing interest shown by manufacturers in India as a preferred manufacturing hub over other countries, including the US and those in the APAC region.

Factors responsible for the improvement in India's**Ranking:**

- The growing focus on India can be attributed to India's operating conditions and cost competitiveness.
- India has a huge population, which means a younger workforce with innovative capabilities that has the potential to fuel the country's manufacturing sector.
- The improvement in ranking can be also attributed to plant relocations from China to other parts of Asia due to an already established base in pharma, chemicals and engineering sectors.
- Also, these factors continue to be at the centre of the US-China trade tensions.

16. (a)**Explanation:**

- During the late 1820s and early 1830s, there emerged a radical, intellectual trend among the youth in Bengal, which came to be known as the 'Young Bengal Movement'.
- A young Anglo-Indian, **Henry Vivian Derozio (1809-31)**, who **taught at the Hindu College from 1826 to 1831**, was the leader and inspirer of this progressive trend.

- Derozio took inspiration from the great French Revolution and inspired his pupils to think freely and rationally, question all authority, love liberty, equality, and freedom, and oppose decadent customs and traditions.
- His followers, called **Derozians**, also supported women's rights and education.
- Derozio was perhaps also the **first nationalist poet of modern India**.
Hence, option (a) is correct.

17. (a)**Explanation:****August Offer (1940) Proposed:**

- **Dominion status as the objective for India; Hence, statement 1 is correct.**
- Expansion of viceroy's executive council which would have a majority of Indians (who would be drawn from major political parties);
- **Setting up of a constituent assembly after the war where mainly Indians would decide the constitution. Hence, statement 2 is correct.**
- No future constitution to be adopted without the consent of minorities.

Cripps Mission (March 1942)

- An **Indian Union with a dominion status** would be set up; it would be free to decide its relations with the **Commonwealth and free to participate in the United Nations** and other international bodies.
- After the end of the war, **a constituent assembly would be convened to frame a new constitution**. The British government would accept the new constitution. Members of this assembly would be **partly elected by the provincial Assemblies through proportional representation and partly nominated by the Princes**.
- Subject to two conditions:
 - **Any province not willing to join the Union could have a separate constitution and form a separate Union. Hence, statement 3 is NOT correct.**
 - The new constitution making body and the British government would negotiate a treaty to effect the transfer of power and to safeguard racial and religious minorities.

**Wavell Plan (1945)**

The main proposals of the Wavell Plan were as follows:

- With the exception of the **governor-general and the commander-in-chief**, all members of the executive council were to be **Indians**.
- **Caste Hindus and Muslims were to have equal representation. Hence, statement 4 is NOT correct.**
- The reconstructed council was to function as an interim government
- The governor-general can exercise veto.

18. (b)

Explanation:

- The surangam or suranga is usually found in **northern Kerala and southern Karnataka**.
- The word surangam is derived from a **Kannada word** for the tunnel. It is also known as **thurangam, thorapu, mala**, etc, in different parts of the Kasaragod district of Kerala. **Hence, statement 1 is NOT correct.**
- It is a horizontal well mostly excavated in hard laterite rock formations.
 - The excavation continues until a good amount of water is struck.
 - Water seeps out of the hard rock and flows out of the tunnel.
 - This water is usually collected in an open pit constructed outside the surangam.

Hence, statement 2 is correct.

- A surangam is about 0.45-0.70 metres (m) wide and about 1.8-2.0 m high. The length varies from 3-300 m.
 - Usually, several subsidiary surangams are excavated inside the main one.
 - If the surangam is very long, several vertical air shafts are provided to ensure atmospheric pressure inside.

- The distance between successive air shafts varies between 50-60 m.
- The approximate dimensions of the air shafts are 2 m by 2 m, and the depth varies from place to place.
- Surangams are similar to **qanats** which once existed in **Mesopotamia and Babylon** around **700 BC**. By 714 BC, this technology had **spread to Egypt, Persia (now Iran) and India**.
- This system has been very effectively used for domestic and agriculture purposes in **dry areas of northern Malabar**.
- Some people believe the surangam is indigenous and a likely origin of the suranga system refers to **18 Karhada Brahmin families** that had been moved to the Kasargod area from modern-day Maharashtra in the 17th century under duress.

19. (b)

Explanation:

Features of the Act of 1909:

This Act is also known as **Morley-Minto Reforms** (Lord Morley was the then Secretary of State for India and Lord Minto was the then Viceroy of India).

1. It considerably increased the size of the legislative councils, **both Central and Provincial**. The number of members in the Central Legislative Council was raised **from 16 to 60**. The number of members in the provincial legislative councils was not uniform. **Hence, statement 1 is NOT correct.**
2. It retained official majority in the **Central Legislative Council** but allowed the provincial legislative councils to have **non-official majority**. **Hence, statement 2 is correct.**
3. It enlarged the deliberative functions of the legislative councils at both the levels. For example, members were allowed to ask supplementary questions, move resolutions on the budget, and so on.
4. It provided (for the **first time**) for the association of Indians with the Executive Councils of the Viceroy and Governors. **Satyendra Prasad Sinha** became the **first Indian** to join the Viceroy's Executive Council. He was appointed as the **law member**.

5. It introduced a system of **communal representation for Muslims** by accepting the concept of 'separate electorate'. Under this, the Muslim members were to be elected only by Muslim voters. Thus, the Act 'legalised communalism' and Lord Minto came to be known as the **Father of Communal Electorate**.
6. It also provided for the separate representation of presidency corporations, chambers of commerce, universities and zamindars.

20. (c)

Explanation:

- The Union Cabinet recently approved a new Mission on Oil Palm to be known as the **National Mission on Edible Oils – Oil Palm (NMEO-OP)**.
- It is a new **Centrally Sponsored Scheme** which focuses on increasing the area and productivity of oilseeds and Oil Palm. **Hence, statement 1 is correct.**
- Due to the heavy dependence on imports for edible oils, it is important to make efforts for increasing the domestic production of edible oils in which increasing area and productivity of oil palm play an important part.
- The special emphasis of the scheme will be on India's **north-eastern states and the Andaman and Nicobar Islands** due to the conducive weather conditions in the regions. **Hence, statement 2 is correct.**
- A financial outlay of **Rs.11,040 crore** has been made for the scheme, out of which **Rs.8,844 crore is the Government of India share** and **Rs.2,196 crore is State share** and this includes the viability gap funding also.
- Under this scheme, it is proposed to cover an additional area of **6.5 lakh hectares (ha.)** for oil palm till the year **2025-26** and thereby reaching the target of 10 lakh hectares ultimately. **Hence, statement 3 is NOT correct.**
- The production of Crude Palm Oil (CPO) is expected to go upto 11.20 lakh tonnes by 2025-26 and upto **28 lakh tonnes by 2029-30.**
- The scheme will immensely benefit the oil palm farmers, increase capital investment, create employment generation, shall reduce the import dependence and also increase the income of the farmers.

- The oilseeds production has increased from 275 lakh tons in 2014-15 to 365.65 lakh tons in 2020-21. At present only 3.70 lakh hectares is under Oil Palm cultivation.
- Oil palm produces **10 to 46 times more oil per hectare** compared to other oilseed crops and has a yield of around 4 tons of oil per ha. Thus, it has **enormous potential** for cultivation.
- The proposed scheme will **subsume the current National Food Security Mission-Oil Palm programme.**
- There are two major focus areas of the Scheme.
 - I. The oil palm farmers produce Fresh Fruit Bunches (FFBs) from which oil is extracted by the industry. Presently the prices of these FFBs are linked to the international CPO prices fluctuations. For the first time, the Government of India will give price assurance to the oil palm farmers for the FFBs. This will be known as the Viability Price (VP).
 - II. The second major focus of the scheme is to **substantially increase the assistance of inputs/interventions.** A substantial increase has been made for planting material for oil palm and this has increased from Rs 12,000 per ha to Rs.29000 per ha. A further substantial increase has been made for maintenance and intercropping interventions.

Palm Oil:

- Palm oil is currently the world's most consumed vegetable oil.
- It is used extensively in the production of detergents, plastics, cosmetics, and biofuels.
- The top consumers of the commodity are India, China, and the European Union (EU).

21. (d)

Explanation:

- In 1902, **Raleigh Commission** was set up to go into conditions and prospects of universities in India and to suggest measures for improvement in their constitution and working.
- The commission precluded from reporting on primary or secondary education. Based on its recommendations, the **Indian Universities Act was passed in 1904.** **Hence, statement 1 is NOT correct.**

**As per the Act:**

1. Universities were to give more attention to study and research;
2. The number of fellows of a university and their period in the office was reduced and most fellows were to be nominated by the Government;
3. The government was to have powers to veto universities' senate regulations and could amend these regulations or pass regulations on its own;
4. Conditions were to be made stricter for affiliation of private colleges, and five lakh rupees were to be sanctioned per annum for five years for improvement of higher education and universities.
 - Curzon justified greater control over universities in the name of quality and efficiency but actually sought to restrict education and to discipline the educated towards loyalty to the Government.
 - The nationalists saw in it an attempt to **strengthen imperialism** and to sabotage nationalist feelings. Gokhale called it a “retrograde measure”. Hence, **statement 2 is NOT correct.**

22. (c)**Explanation:**

- Recently, the **Ministry of Labour and Employment** launched the e-SHRAM portal. Hence, **statement 1 is NOT correct.**
 - The formation of the e-SHRAM portal came after the Supreme Court directed the Government to complete the registration process of unorganized workers so that they can avail the welfare benefits given under various government schemes.
- By this portal, the government **aims to register 38 crore unorganised workers** such as construction labourers, migrant workforce, street vendors, and domestic workers, among others.
- After registering at the portal, workers will be issued an **e-SHRAM card** containing a **12 digit unique number** which going ahead will help in the inclusion of these workers in social security schemes. Hence, **statement 2 is NOT correct.**
- Every registered unorganised worker one-SHRAM Portal will be eligible for Accidental Insurance cover of Rs 2.0 Lakh on death or permanent disability and Rs 1.0 lakh on partial disability. Hence, **statement 3 is correct.**

- The **registration** under e-SHRAM is **free** and workers do not have to pay anything for his or her registration at Common Service Centres (CSCs) or anywhere.
- The e-SHRAM portal will create a National database of all unorganized workers. Hence, **statement 4 is correct.**
- Governments in States/UTs will conduct registration of unorganised workers across the country.
- The Common Service Centres (CSCs) have a key role in the registration of unorganized workers.
- According to the **Periodic Labour Force Survey (PLFS 2018-19)**, **90%** of workers were **in the informal sector**, which is 419 million of the 465 million workers.
- **Informal workers** in rural and urban areas have been **hit the most due to the pandemic**, because of the seasonality of their employment and lack of formal employee-employer relationships.

23. (b)**Explanation:**

As an answer to **Lord Birkenhead's challenge**, an All Parties Conference met in February 1928 and appointed a subcommittee under the chairmanship of **Motilal Nehru** to draft a constitution.

Main Recommendations:

- The Nehru Report **confined itself to British India**, as it envisaged the future link-up of British India with the princely states on a federal basis. Hence, **statement 3 is NOT correct.**
- **Dominion status on lines of self-governing dominions** as the form of government desired by Indians (Against demand of complete Independence by younger section like Jawaharlal Nehru). Hence, **statement 1 is NOT correct.**
- Joint electorates with reservation of seats for Muslims at the Centre and in provinces where they were in minority in proportion to the Muslim population there with right to contest additional seats.
- **Linguistic provinces.**
- **Nineteen fundamental rights** including equal rights to women, right to form unions, and universal adult suffrage. Hence, **statement 2 is correct.**
- Responsible government at the Centre and in the provinces.

**24. (c)****Explanation:****Indian Councils Act 1892****Main Provisions**

- Number of additional members in the Imperial Legislative Councils and the Provincial Legislative Councils was raised. In the **Imperial Legislative Council**, now the governor-general could have **ten to sixteen non-officials** (instead of six to ten previously).
- The non-official members of the Indian legislative council were to be nominated by the Bengal Chamber of Commerce and provincial legislative councils. The members could be recommended by universities, municipalities, zamindars and chambers of commerce. So the **principle of representation** was introduced. **Hence, statement 1 is correct.**
- Budget could be discussed.
- Questions could be asked.

Limitations

- The act made a limited and indirect provision for the use of election in filling up some of the non-official seats both in the Central and provincial legislative councils. **The word “election” was, however, not used in the act. Hence, statement 3 is correct.**
- The ‘reformed’ Imperial Legislative Council met, during its tenure till 1909, on an average for only thirteen days in a year, and the number of unofficial Indian members present was only five out of twenty-four.
- The budget **could not be voted upon, nor could any amendments** be made to it. **Hence, statement 2 is NOT correct.**
- Supplementaries could not be asked, nor could answers to any question be discussed.

25. (a)**Explanation:**

- To **boost domestic defence and aerospace manufacturing**, the Ministry of Defence (MoD) has launched Defence Testing Infrastructure Scheme (DTIS).
- The scheme was launched by Raksha Mantri on **May 08, 2020**.
- The scheme would run for **five years. Hence, statement 2 is correct.**
- It envisages the setting up of **6-8 Greenfield Defence Testing Infrastructure facilities** that are required for defence and aerospace-related production. **Hence, statement 3 is correct.**

Objectives:

- **Promote indigenous defence production**, with a special focus on the participation of the Ministry of Micro, Small and Medium Enterprises (MSMEs) and Start-Ups by bridging gaps in defence testing infrastructure in the country.
- Provide easy access and meet the testing needs of the domestic defence industry.
- Facilitate indigenous defence production, consequently, reduce imports of military equipment and helping make the country self-reliant.

Finance and Cooperation:

- DTIS has been launched with an outlay of **Rs 400 crore** for creating state-of-the-art testing infrastructure in partnership with the private industry. **Hence, statement 1 is NOT correct.**
- The projects under the Scheme will be provided with up to **75% government funding** in the form of ‘Grant-in-Aid’. The **remaining 25%** of the project cost will have to be **borne by the Special Purpose Vehicle (SPV)** whose constituents will be Indian private entities and State Governments. **Hence, statement 4 is NOT correct.**
 - Only private entities registered in India and State Government agencies will qualify for forming the implementation agency for the Scheme.
 - The SPVs under the Scheme will be registered under the Companies Act 2013.

26. (c)**Explanation:**

- The Indian army was carefully reorganized after 1858. Some changes were made necessary by the transfer of power to the Crown. Firstly, the domination of the army by its European branch was carefully guaranteed.
- The proportion of Europeans to Indians in the army was raised. Moreover, the European troops were kept in key geographical and military positions. **Hence, statement 1 is NOT correct.**
- The organization of the Indian section of the army was based on the policy of divide and rule so as to prevent its chance of uniting again in an anti-British uprising. Communal, caste, tribal and regional loyalties were encouraged. For example caste and communal companies were introduced in most of the regiments. **Hence, statement 2 is correct.**

641, 1st floor, Mukherjee
Nagar, Delhi 11000921, Pusa Road,

Copyright – Drishti The Vision Foundation

- The policy of excluding Indians from the officer corps was strictly maintained. Till 1914, no Indian could rise higher than the rank of a subedar. **Hence, statement 3 is correct.**

27. (a)

Explanation:

The Trade Union Act, 1926:

- **recognised trade unions** as legal associations;
- laid down conditions for **registration and regulation of trade union** activities;
- Trade Unions got immunity, **both civil and criminal**, from prosecution for legitimate activities, but put some restrictions on their political activities. **Hence, statement 1 is correct.**

The Trade Disputes Act (TDA), 1929:

- Made compulsory the appointment of **Courts of Inquiry and Consultation Boards** for settling industrial disputes;
- **Strikes in public utility services like posts, railways, water and electricity**, unless each individual worker planning to go on strike gave an advance notice of one month to the administration **were made illegal**; **Hence, statement 2 is correct.**
- Forbade trade union activity of purely political nature and even sympathetic strikes.

The AITUC

- The **All India Trade Union Congress (AITUC)** was founded on October 31, 1920.
- **Lala Lajpat Rai**, was elected as the **first president** of AITUC and Dewan Chaman Lal as the first general secretary. **Hence, statement 3 is NOT correct.**

28. (b)

Explanation:

- **Kol Uprising:** It took place by the Kols of Chota Nagpur and it was led by **Buddho Bhagat** in **1831**. It was against the expansion of British rule on their lands and the transfer of their lands to outsiders. Eventually, the revolt was suppressed.
- **Naikada Movement:** This movement took place in the **1860s** in Madhya Pradesh and Gujarat. The movement was against the British and the caste Hindus.
- **Tana Bhagat Movement:** It took place among the Mundas and Oraon tribes during **1914-1915**, in the

Chotanagpur region. The leadership in the movement was provided by **Jatra Bhagat and Balram Bhagat**. These leaders preached that God's benevolent delegate would arrive to free the tribals. The movement began as a Sanskritisation movement and it was against the interference of outsiders.

- **Rampa Revolt:** It was led by **Alluri Sitarama Raju** of the Koyas in the Rampa region of Andhra Pradesh in **1916 and again in 1922-1924**. The revolt was against British interference. After a relentless chase by British forces, Rama Raju was caught and martyred on May 7, 1924.

Hence, option (b) is correct.

29. (b)

Explanation:

- In August 2021, the Union Cabinet, chaired by the Prime Minister **gave its approval for ratification** of the Kigali Amendment. **Hence, statement 1 is NOT correct.**
- The Kigali Amendment, **named after the Rwandan capital where it was negotiated**, enables the **phase-out of hydrofluorocarbons (HFCs)**, a set of chemicals notorious for their capacity to warm the planet. **Hence, both statements 2 and 3 are correct.**
- The Kigali Amendment enabled the **Montreal Protocol** to mandate the elimination of HFCs as well besides phasing out ozone-destroying chemicals. **Hence, statement 4 is NOT correct.**

Implementation strategy and targets:

- National strategy for phase down of HFCs as per the applicable phase down schedule for India will be developed after required consultation with all the industry stakeholders by 2023.
- Amendments to the existing legislation framework, the Ozone Depleting Substances (Regulation and Control) Rules to allow appropriate control of the production and consumption of HFCs to ensure compliance with the Kigali Amendment will be done by mid-2024.

Other details:

- HFCs were introduced as non-ozone depleting alternatives to chlorofluorocarbons (CFCs). While **HFCs do not deplete the stratospheric ozone layer**, they have **high global warming potential** ranging from 12 to 14,000, which have adverse impact on climate.

- Recognizing the growth in use of HFCs, especially in Refrigeration and Air-conditioning sector the Parties to the Montreal Protocol, reached agreement at their 28th Meeting of the Parties (MOP) held in **October 2016 in Kigali, Rwanda** to add HFCs to the list of controlled substances and approved a timeline for their **gradual reduction by 80-85 per cent by the late 2040s**.
- India will complete its phase down of HFCs in **4 steps from 2032 onwards** with cumulative reduction of **10% in 2032, 20% in 2037, 30% in 2042 and 85% in 2047**.
- All amendments and adjustments of the Montreal Protocol, prior to the Kigali Amendment have Universal support.

Montreal Protocol:

- The **1989 Montreal Protocol on Substances that Deplete the Ozone Layer**, is an international environmental **treaty for the protection of the Ozone Layer** by phasing out the production and consumption of man-made chemicals referred to as ozone depleting substances (ODS).
- The stratospheric ozone layer protects humans and the environment from harmful levels of ultraviolet radiation from the sun.
- India became a Party to the Montreal Protocol on **19 June 1992** and since then has ratified the amendments to the Montreal Protocol.
- India has successfully met the phase out targets of all the Ozone Depleting Substances as per the Montreal Protocol Schedule.

30. (b)

Explanation:

1. Lord Lytton 1876-1880

- (a) The famine of 1876-78 affecting Madras, Bombay, Mysore, Hyderabad, parts of central India and Punjab; appointment of Famine Commission under the presidency of Richard Strachey (1878).
- (b) Royal Titles Act (1876), Queen Victoria assuming the title of 'Kaiser-i-Hind' or Queen Empress of India.
- (c) **The Vernacular Press Act (1878).**
- (d) The Arms Act (1878).
- (e) The Second Afghan War (1878-80).

2. Lord Ripon 1880-1884

- (a) **Repeal of the Vernacular Press Act (1882). Hence, pair 3 is NOT correctly matched.**
- (b) The first Factory Act (1881) to improve labour conditions.
- (c) Continuation of financial decentralisation.
- (d) Government resolution on local self-government (1882).
- (e) Appointment of Education Commission under the chairmanship of Sir William Hunter (1882).
- (f) The Ilbert Bill controversy (1883-84).
- (g) Rendition of Mysore.

3. Lord Hardinge II 1910-1916

- (a) Creation of Bengal Presidency (like Bombay and Madras) in 1911.
- (b) **Transfer of capital from Calcutta to Delhi (1911). Hence, pair 1 is correctly matched.**
- (c) Establishment of the Hindu Mahasabha (1915) by Madan Mohan Malaviya.
- (d) Coronation durbar of King George V held in Delhi (1911)

4. Lord Reading 1921-1926

- (a) **Chauri Chaura incident (February 5, 1922) and the subsequent withdrawal of the Non-Cooperation Movement. Hence, pair 4 is correctly matched.**
- (b) Moplah rebellion in Kerala (1921).
- (c) Repeal of the Press Act of 1910 and the Rowlatt Act of 1919.
- (d) Criminal Law Amendment Act and abolition of cotton excise.
- (e) Communal riots in Multan, Amritsar, Delhi, Aligarh, Arvi and Calcutta.
- (f) Kakori train robbery (1925).
- (g) Murder of Swami Shraddhanand (1926).
- (h) Establishment of Swaraj Party by C.R. Das and Motilal Nehru (1922).
- (i) The decision to hold simultaneous examinations for the ICS both in Delhi and London, with effect from 1923.

5. Lord Irwin 1926-1931

- (a) Visit of Simon Commission to India (1928) and the boycott of the commission by the Indians. **Hence, pair 2 is NOT correctly matched.**

Copyright – Drishti The Vision Foundation

**31. (c)****Explanation:**

- Recently, the Union Minister for Finance and Corporate Affairs launched the asset monetisation pipeline of Central ministries and public sector entities '**National Monetisation Pipeline**'.
- **NITI Aayog** has developed the pipeline, in consultation with infrastructure line ministries, based on the mandate for 'Asset Monetisation' under Union Budget 2021-22. **Hence, statement 2 is NOT correct.**
- NMP estimates aggregate monetisation potential of **Rs 6.0 lakh crores** through core assets of the Central Government, over a four-year period, from **FY 2022 to FY 2025. Hence, statement 1 is NOT correct.**
- Asset monetisation, based on the philosophy of **Creation through Monetisation**, is aimed at tapping private sector investment for new infrastructure creation.
- This is necessary for **creating employment opportunities**, thereby enabling **high economic growth** and seamlessly integrating the rural and semi-urban areas for **overall public welfare**.

Framework:

- Monetization through disinvestment and monetization of non-core assets have not been included in the NMP.
- The framework for monetisation of core asset monetisation has three **key imperatives**.

**Estimated Potential:**

- The NMP will run co-terminus with the **Rs 100 lakh crore National Infrastructure Pipeline (NIP)** announced in December 2019. **Hence, statement 3 is correct.**
- The estimated value of **NMP corresponds to ~14% of the proposed outlay for Centre under NIP (Rs 43 lakh crore)**. This includes more than 12 line ministries and more than 20 asset classes.

- The sectors included are roads, ports, airports, railways, warehousing, gas & product pipeline, power generation and transmission, mining, telecom, stadium, hospitality and housing.
- The top 5 sectors (by estimated value) capture ~83% of the aggregate pipeline value. These top 5 sectors include: Roads (27%) followed by Railways (25%), Power (15%), oil & gas pipelines (8%) and Telecom (6%).
- In terms of annual phasing by value, 15% of assets with an indicative value of Rs 0.88 lakh crore are envisaged to be rolled out in the current financial year (FY 2021-22).
- However, the aggregate as well as year on year value under NMP is only an indicative value with the actual realization for public assets depending on the timing, transaction structuring, investor interest etc.

32. (b)**Explanation:**

- Ramosis were hill tribes of **western ghats. Hence, statement 1 is NOT correct.**
- They had not reconciled to the British rule and the British pattern of administration. They resented the policy of annexation.
- After annexation of the Maratha territories by the British the Ramosis, who had been employed by the Marathas lost their means of livelihood. **Hence, statement 2 is correct.**
- Ramosi leader were- **Chittur Singh, Umaji Naik, Raja Pratap Singh.**
- Finally, superior British force restored order in the area. Generally British followed a pacifist policy towards the Ramosis, and even recruited some of them into the hill police. **Hence, statement 3 is correct.**

33. (b)**Explanation:****Wardha Scheme of Basic Education (1937)**

- The Congress had organised a National Conference on Education in October 1937 in Wardha. In the light of the resolutions passed there, **Zakir Hussain committee** formulated this detailed national scheme for basic education. The main principle behind this scheme was 'learning through activity'. **Hence, statement 2 is NOT correct.**

- It was based on Gandhi's ideas published in a series of articles in the weekly **Harijan**. Gandhi thought that western education had created a gulf between the educated few and the masses and had also made the educated elite ineffective. **Hence, statement 1 is correct.**
- The scheme had the following provisions.
 - (i) Inclusion of a **basic handicraft** in the syllabus.
 - (ii) First seven years of schooling to be an integral part of a free and compulsory nationwide education system (through **mother tongue**). **Hence, statement 3 is correct.**
 - (iii) Ways to be devised to establish contact with the community around schools through service.
 - (iv) A suitable technique to be devised with aim to implementing the main idea of basic education—educating the child through the medium of productive activity of a suitable handicraft.
- The system, rather than being a methodology for development of education, was an expression of an idea for a new life and a new society. The basic premise was that only through such a scheme could India be an independent and non-violent society.

34. (d)

Explanation:

- The Medical Termination of Pregnancy Act, 1971 (MTP Act) was passed due to the progress made in the field of medical science with respect to safer abortions.
- In a historic move to provide universal access reproductive health services, India amended the MTP Act 1971 to further empower women by providing comprehensive abortion care to all.
- The new Medical Termination of Pregnancy (Amendment) Act 2021 expands the access to safe and legal abortion services on therapeutic, eugenic, humanitarian and social grounds to ensure universal access to comprehensive care.

Key provisions of the MTP Amendment Act, 2021:

- Under the Act, a pregnancy may be terminated up to **20 weeks by a married woman** in the case of failure of contraceptive method or device. It allows unmarried women to also terminate a pregnancy for this reason. **Hence, statement 1 is correct.**
- **Opinion needed for Termination of Pregnancy:**
 - Opinion of one Registered Medical Practitioner (RMP) for termination of pregnancy up to 20 weeks of gestation.

- Opinion of two RMPs for termination of pregnancy of 20-24 weeks of gestation.
- Opinion of the State-level medical board is essential for a pregnancy to be **terminated after 24 weeks** in case of **substantial foetal abnormalities**. **Hence, statement 2 is correct.**

- Increases the upper gestation limit from 20 to 24 weeks for special categories of women, including survivors of rape, victims of incest and other vulnerable women (differently abled women, minors, among others).
- The “name and other particulars of a woman whose pregnancy has been terminated shall not be revealed”, except to a person authorised in any law that is currently in force.

Significance of the amendment:

- The new law will contribute towards ending preventable maternal mortality to help meet the **Sustainable Development Goals (SDGs) 3.1, 3.7 and 5.6** here **SDG 3.1 pertains to reducing maternal mortality ratio** whereas **SDGs 3.7 and 5.6 pertain to universal access to sexual and reproductive health and rights**.
- The amendments will increase the ambit and access of women to safe abortion services and will ensure dignity, autonomy, confidentiality and justice for women who need to terminate pregnancy.

35. (c)

Explanation:

- e-RUP is an **electronic voucher-based digital payment system**. It is a cashless and contactless method for digital payment. **It is a Quick Response (QR) code or SMS string-based e-voucher**, which is delivered to the mobile of the users.
- The users will be able to redeem the voucher without needing a card, digital payments app, or internet banking access, at the service provider. The mechanism also ensures that the payment to the service provider is made only after the transaction is completed.
- The system is pre-paid in nature and hence, assures timely payment to the service provider **without the involvement of any intermediary**. **Hence, statements 1 and 3 are correct while statement 2 is NOT correct.**

**36. (c)****Explanation:**

- **Policy of Ring Fence (1765-1813):** This policy was reflected in Warren Hastings' wars against the Marathas and Mysore, and **aimed at creating buffer zones to defend the Company's frontiers.** The main threat was from the Marathas and Afghan invaders the Company undertook to organise Avvadh's defence to safeguard Bengal's security. **Hence, statement 1 is correct.**
- **Lord Wellesley's policy of subsidiary alliance was an extension of Ring Fence**—which sought to reduce states to a position of dependence on British Government in India. Major powers such as **Hyderabad, Awadh and the Marathas** accepted subsidiary alliance. Thus, British supremacy was established. **Hence, statement 2 is correct.**

37. (c)**Explanation:**

- Recently, the Union Government approved the continuation of more than 1000 Fast Track Special Courts (FTSCs) as a **Centrally Sponsored Scheme (CSS) for two years** (April 2021-March 2023). **Hence, statement 1 is correct.**
- Fast Track Special Courts are dedicated courts expected to ensure swift dispensation of justice.
- They have a better clearance rate as compared to the regular courts and hold speedy trials. Besides providing quick justice to the hapless victims, it strengthens the deterrence framework for sexual offenders.
- Fast Track Courts (FTCs) were **first recommended by the Eleventh Finance Commission in 2000** "to substantially bring down, if not eliminate, pendency in the district and subordinate courts over the next five years".
- More recently, **in 2019, the government approved a scheme for setting up 1,023 Fast-track Special Courts (FTSCs)** across the country for expeditious disposal of pending rape cases under the Indian penal Code (IPC) and crimes under the POCSO Act.
- In July 2019, the SC also directed the setting up of a centrally funded special court in each district **where more than 100 FIRs are registered under the POCSO Act in order to deal exclusively with these cases.** **Hence statement 3 is correct.**

- It includes 389 exclusive POCSO (Protection of Children from Sexual Offences) Courts.
- The Central share for these courts will be provided from the **Nirbhaya Fund.** **Hence, statement 2 is NOT correct.**

38. (a)**Explanation:**

- **Raja Ram Mohan Roy** started his public life in 1815 with the establishment of the **Atmiya Sabha.** This sabha vehemently protested against the prevalent practice of **selling young girls to prospective husbands** due to some pecuniary interests, in the name of the Kuleen tradition. **Hence, statement 1 is correct.**
- It also **opposed polygamy** and worked for the removal of caste disabilities. Roy believed in the **progressive role of the British rule in India** and sought government held in the matter of social reforms, especially in the form of socially progressive legislations.
- He started the Atmiya Sabha and carried on consistent struggle against the religious and social malpractices. **This sabha denounced idolatry and advocated monotheism and not atheism.** **Hence, statement 2 is NOT correct.**

39. (b)**Explanation:**

- **Mahatma Jyotirao Govindrao Phule** (1827-1890), also known as Jyotiba Phule was a social activist, thinker, anti-caste social reformer and writer from Maharashtra. His work extended to many fields including eradication of untouchability and the caste system and women's emancipation.
- In 1873, Phule, along with his followers, formed the **Satya Shodhak Samaj** (Society of Seekers of Truth) to attain equal rights for people from lower castes. People from all religions and castes could become a part of this association which worked for the upliftment of the oppressed classes.
- Phule is regarded as an important figure in the social reform movement in Lagrange. He and his wife, Savitribhai Phule, were pioneers of women's education in India. He is mostly known for his efforts in educating women and lower caste people. Phule Started the first school for girls in 1848 at Pune.

- In Brahmanache Kasab (1869), Phule has exposed the exploitation by Brahmin priests. **In Gulamgiri (1873) he has given a historical survey of the slavery of lower castes. Hence, option (b) is correct.**
- Some ten years before writing this book, the American Civil War had been fought, leading to the end of slavery in America. Phule dedicated his book to all those Americans who had fought to free slaves, thus establishing a link between the conditions of the “lower” castes in India and the black slaves in America.

40. (c)

Explanation:

- Ethnically, Halam communities (categorized as Scheduled Tribes in Tripura) belong to the Kuki-Chin tribes of the Tibeto-Burmese ethnic group. Halams live in typical “Tong Ghar” specially made of bamboo and Chan grass. Apart from plain land cultivation they still practice Jhum cultivation. **Hence, both statements 1 and 2 are correct.**
- People of Halam sub-tribes, who took refuge in Assam following clashes with Bru refugees in north Tripura, are returning to their village Damcheria in the North district of Tripura.
- Bru or Reang is a community indigenous to Northeast India, living mostly in Tripura, Mizoram, and Assam. In Tripura, they are recognised as a Particularly Vulnerable Tribal Group.
- Halams are divided into several sub-clans which is referred as “Barki-Halam”. Major sub-clans of Halams are (1) Kolo, (2) Korbong, (3) Kaipeng, (4) Bong, (5) Sakachep, (6) Thangachep, (7) Dab or Nabin, (8) Bongcher, (9) Molsom, (10) Rupini, (11) Rangkhawl, (12) Chora, (13) Lankai, (14) Kaireng (Darlong), (15) Ranglong, (16) Marchafang & (17) Saihmar. As per 2011 Census their total population is 57,210 and distributed throughout the State.

41. (c)

Explanation:

- The Bhils were concentrated in the hill ranges of **Khandesh** in the previous Maratha territory. British occupation of this region in 1818 brought in, the outsiders and accompanying dislocations in their community life. **Hence, statement 1 is correct.**
- A general Bhil insurrection in 1817-19 was crushed by the British Military forces and though some conciliatory measures were taken to pacify them.

- They again **revolted under the leadership of SevaRam in 1825** and the situation remained unsettled until 1831 when the Ramosi Leader Umaji Raje of Purandhar was finally captured and executed. Minor revolts again took place in 1836 and 1846 as well. **Hence, statement 2 is correct.**
- The Bhils’ local rivals for power, the Kolis of Ahmednagar district, also challenged the British in 1829, but were quickly subdued by a large army contingent. The seeds of rebellion however persisted, to erupt again in 1844-46, when a local Koli leader successfully defied the British government for two years.

42. (a)

Explanation:

- Red tide is a phenomenon caused by algal blooms during which algae become so numerous that they discolor coastal waters (hence the name “red tide”).
- The algal bloom may also deplete oxygen in the waters and/or release toxins that may cause illness in humans and other animals.
- Some species that release these harmful toxins include: **Alexandrium fundyense, Alexandrium catenella, Karenia brevis.**
- While many people call these blooms ‘red tides,’ scientists prefer the term harmful algal bloom. Harmful Algal Blooms, or HABs, occur when colonies of algae grow out of control and produce toxic or harmful effects on people, fish, shellfish, marine mammals, and birds. Blooms are more likely to happen in summer or fall but can occur any time of year. **Hence, statement 1 is correct.**
- Florida has been battling outbreaks of red tide, caused by the algae *Karenia Brevis*, for several years. This year’s bloom may have been aggravated due to the release of contaminated water into Tampa Bay earlier. **Hence, statement 2 is NOT correct.**

43. (c)

Explanation:

First Carnatic War (1740-48)

- The First Carnatic War was an **extension of the Anglo-French war in Europe** which was **caused by the Austrian war of succession.**
- **Immediate cause-** provocation by the English Navy (French ships were seized)

641, 1st floor, Mukherjee

- **Result-** Treaty of Aix-La Chapelle, Madras handed over to British and the French got their territories in North America.

Hence, pair 1 is NOT correctly matched.

Second Carnatic War (1749-54)

The background for Second Carnatic war was provided by rivalry in India. Dupleix, sought to increase power and influence by **interfering in local dynastic disputes** to defeat English.

- **Result-** The French authorities, annoyed at the heavy financial losses that Dupleix's policy involved, decided to recall him in 1754.

Hence, pair 2 is NOT correctly matched.

Third Carnatic War (1758-63)

In Europe, when Austria wanted to recover Silesia in 1756, the **Seven Years War (1756-63)** started. Britain and France were once again on opposite sides.

- **Battle of Wandiwash:** The decisive battle of the Third Carnatic War was won by the English on January 22, 1760 at Wandiwash (or Vandavasi) in Tamil Nadu.
- **Result:** Although the Treaty of Peace of Paris (1763) restored to the French their factories in India, the French political influence disappeared after the war.
- **Significance:** The victory at Wandiwash left the English East India Company with no European rival in India.

Hence, pair 3 is correctly matched.

44. (d)

Explanation:

- Recently, the Supreme Court (SC) held that the Governor's power to pardon overrides Section 433A of Code of Criminal Procedure (CrPC). **Hence, statement 1 is NOT correct.**
- SC held that the Governor of a State can pardon prisoners, even before they have served a minimum of 14 years of the prison sentence. The Governor's power to pardon overrides a provision in the CrPC Section 433A which mandates that a prisoner's sentence can be remitted only after 14 years of jail. **Hence, statement 2 is NOT correct.**
- As per Article 161 of the Constitution, the Governor can grant pardons, reprieves, respites and remissions of punishment or suspend, remit and commute the sentence of any person convicted of any offence against any law relating to a matter to which the executive power of the state extends.

45. (c)

Explanation:

Exp.: Before the introduction of the British policies in the areas inhabited by the Mundas, their traditional land and social systems was known as '**Khuntkari system**'. This system recognised the customary rights of Mundas over their land. The system was marked by the absence of the class of landlords. The tribals worked on their land and paid tributes to their chiefs.

- **Munda tribes of Singhbhum and Ranchi districts** under the leadership of Birsa Munda rebelled against abolition of customary rights of land by the British. this movement was also directed against the outsiders dikus - landlords, traders, merchants and government officers which exploited the Mundas. **Hence, option (c) is correct.**
- By 1874, the British replaced the traditional khuntkari system by the zamindari system. The introduction of zamindari system created the classes of zamindars (landlords) and ryots (tenants). The tribals now had to pay rent to the landlords and failure to do so resulted in their eviction from land.

46. (a)

Explanation:

Participants of the Civil Disobedience Movement:

- In the countryside, **rich peasant communities** – like the **Patidars of Gujarat and the Jats of Uttar Pradesh** – were **active in the movement**. Being producers of commercial crops, they were very hard hit by the trade depression and falling prices.
- These rich peasants became enthusiastic supporters of the Civil Disobedience Movement, organising their communities, and at times forcing reluctant members, to participate in the boycott programmes.
- For them the **fight for swaraj was a struggle against high revenues**. But they were deeply disappointed when the movement was called off in 1931 without the revenue rates being revised. So when the movement was restarted in 1932, many of them refused to participate.

Poor Peasants:

- The poorer peasantry were not just interested in the lowering of the revenue demand. Many of them were small tenants cultivating land they had rented from landlords.

Copyright – Drishti The Vision Foundation

- As the Depression continued and cash incomes dwindled, the small tenants found it difficult to pay their rent.
- **They wanted the unpaid rent to the landlord to be remitted. They joined a variety of radical movements, often led by Socialists and Communists.**
- Apprehensive of raising issues that might upset the rich peasants and landlords, the **Congress was unwilling to support 'no rent' campaigns in most places.** So the relationship between the poor peasants and the Congress remained uncertain. **Hence, statement 3 is correct.**

Business classes

- **They wanted protection against imports of foreign goods, and a rupee-sterling foreign exchange ratio that would discourage imports.**
- To organise business interests, they formed the Indian Industrial and Commercial Congress in 1920 and the Federation of the Indian Chamber of Commerce and Industries (FICCI) in 1927.
- Led by prominent industrialists like Purshottamdas Thakurdas and G. D. Birla, the industrialists attacked colonial control over the Indian economy, and supported the Civil Disobedience Movement when it was first launched.
- They gave financial assistance and refused to buy or sell imported goods. Most businessmen came to see swaraj as a time when colonial restrictions on business would no longer exist and trade and industry would flourish without constraints.

Industrial working classes

- The industrial working classes did not participate in the Civil Disobedience Movement in large numbers, except in the Nagpur region. **Hence, statement 1 is NOT correct.**
- As the industrialists came closer to the Congress, workers stayed aloof.
- But in spite of that, some workers did participate in the Civil Disobedience Movement, selectively adopting some of the ideas of the Gandhian programme, like boycott of foreign goods, as part of their own movements against low wages and poor working conditions.
- But the Congress was reluctant to include workers' demands as part of its programme of struggle. It felt that this would alienate industrialists and divide the anti-imperial forces. **Hence, statement 2 is NOT correct.**

47. (a)

Explanation:

- In recent years, a lot of efforts have been put by conservationists to save the world's most endangered turtle, **Swinhoe's softshell turtle** from the brink of extinction.
- These turtles are **gray with light gray or yellow spots.**
- They have been driven to the brink by hunting for its meat and eggs, as well as by destruction of its habitat.
- They are listed as **critically endangered** in the IUCN Red List. **Hence, statement 2 is correct.**
- Some researchers have highlighted their **importance to the seafloor biosystem**, where they contribute by enriching soil nutrients and facilitating seed dispersion.
- In **Vietnam**, these animals have great cultural significance as **people in Hanoi revere** this creature as **a living god.**
- The natural habitat for these turtles are wetlands and large lakes. They are **natives of China and Vietnam.** **Hence, statement 1 is correct while statement 3 is NOT correct.**

48. (a)

Explanation:

- At the Lahore session of the Congress in 1929, J.L. Nehru (presiding the session) proclaimed: 'I am a socialist and a republican, and am no believer in kings and princes, or in the order which produces the modern kings of industry, who have a greater power over the lives and fortunes of men than even the kings of old, and whose methods. The rise of the Left- Wing are as predatory as those of the old feudal aristocracy.' India, he said, would have **to adopt a full 'socialist programme'** if she was **'to end her poverty and inequality.'** This session is also known for declaration of **'Purna Swaraj'** as the objective of freedom struggle in India.
- According to him, the problem of poverty, unemployment and subjection of Indian people can only be ended through socialism which involves vast and revolutionary changes in our political and social structure. **Hence, statement 1 is correct.**
- However, it was in the **Karachi session (1931)** the resolution on **Fundamental Rights and the National Economic Programme was passed.** Even though the

Congress had from its inception fought for the economic interests, civil liberties and political rights of the people, this was the first time that the Congress defined what Swaraj would mean for the masses. **Hence, statement 2 is NOT correct.**

- This resolution included substantial reduction in rent and revenue, exemption from rent in case of uneconomic holdings, and relief of agricultural indebtedness and control of usury; better conditions for workers, including a living wage, limited hours of work and protection of women workers; the right to organize and form unions to workers and peasants; and state ownership or control of key industries, mines and means of transport.

49. (c)

Explanation:

Samagra Shiksha Scheme 2.0:

- In order to enhance the direct outreach of the scheme, all child-centric interventions will be provided directly to the students through Direct Benefit Transfer (DBT) mode on an IT-based platform over a period of time.
- It has a new component for the appointment of language teachers, which includes salaries, and training costs as well as bilingual books and teaching-learning material as recommended in **National Education Policy 2020 (NEP 2020)**.
- It will now include funding to support pre-primary sections **at government schools**, i.e. for teaching and learning materials, indigenous toys and games, and play-based activities. **Hence, option (c) is correct.**
- It includes a **provision to support out-of-school children** from age 16 to 19 with funding of Rs. 2000 per grade to complete their education via open schooling.

50. (d)

Explanation:

- In December **1905**, at the **Benaras session** of the Indian National Congress presided over by **Gokhale**, the **Moderate- Extremist differences came to the fore**.
- The Extremists wanted to extend the Boycott and Swadeshi Movement to regions outside Bengal and also to include all forms of associations (such as government service, law courts, legislative councils, etc.) within the boycott programme.

- Thus, start a nationwide mass movement. The Extremists wanted a strong resolution supporting their programme at the Benaras session. **Hence, statement 1 is correct.**
- The **Moderates**, on the other hand, were not in favour of extending the movement beyond Bengal and were **totally opposed to boycott of councils and similar associations**. **Hence, statement 2 is correct.**
- At the Calcutta session of the Congress in December 1906, the Extremists wanted either Tilak or Lajpat Rai as the president, while the Moderates proposed the name of Dadabhai Naoroji, who was widely respected by all the nationalists.
- Finally, **Dadabhai Naoroji** was elected as the president and as a concession to the militants.
- The **goal** of the Indian National Congress was defined as '**swarajya or self-government**'. Also, a resolution supporting the programme of swadeshi, boycott and national education was passed. **Hence, statement 3 is correct.**
- The word **swaraj** was mentioned for the **first time**, but its connotation was not spelt out, which left the field open for differing interpretations by the Moderates and the Extremists.

51. (b)

Explanation:

- The Geological Survey of India (GSI) has recently identified certain geological sites across the Northeast for the promotion of geo-tourism.
- 12 locations in the Northeast are included in the 32 approved geo-tourism or geo-heritage sites in the country. These are scenic places that can be top attractions through responsible tourism.
- Geotourism is defined as "tourism that sustains or enhances the geographical character of a place - its environment, culture, aesthetics, heritage, and the well-being of its residents."

Geo-heritage Sites:

- Geo-heritage refers to the geological features which are inherently or culturally significant offering insight to earth's evolution or history to earth science or that can be utilized for education.
- Geological Survey of India (GSI) is the parent body that is making efforts towards the identification and protection of geo-heritage sites/national geological monuments in the country.

- The 12 sites from the Northeastern states are mentioned in the following table:

State	Geological site
Meghalaya	Mawmluh Cave, Mawblei or God's Rock, Therriaghat
Assam	Majuli, Umananda
Tripura	Chabimura, Unakoti
Arunachal Pradesh	Sangetsar Tso
Manipur	Loktak Lake
Mizoram	Reiek Tlang
Nagaland	Naga Hill Ophiolite
Sikkim	Stromatolite Park

Hence, option (b) is correct.

52. (c)

Explanation:

During the Quit India Movement (QIM), parallel governments were established in many places:

- **Ballia (in August 1942 for a week)**—under Chittu Pandey. He got many Congress leaders released.
- **Tamluk (Midnapore, from December 1942 to September 1944)**—Jatiya Sarkar undertook cyclone relief work, sanctioned grants to schools, supplied paddy from the rich to the poor, organised Vidyut Vahinis, etc.
- **Satara (mid-1943 to 1945)**—named “Prati Sarkar”, was organised under leaders like Y.B. Chavan, Nana Patil, etc. Village libraries and Nyayadan Mandals were organised, prohibition campaigns were carried on and ‘Gandhi marriages’ were organised.

Hence, statement 1 is correct.

Extent of Mass Participation

- **Youth**, especially the students of schools and colleges, remained at the forefront.
- **Women**, especially school and college girls, actively participated and included Aruna Asaf Ali, Sucheta Kripalani and Usha Mehta.
- **Workers** went on strikes and faced repression.
- **Peasants** of all strata were at the heart of the movement.
- **The Communists did not join the movement.**
- **The Muslim League opposed the movement**, fearing that if the British left India at that time, the minorities would be oppressed by the Hindus. Hence, statement 2 is correct.

- The **Hindu Mahasabha** boycotted the movement.
- The **Princely states** showed a low-key response.

53. (c)

Explanation:

- Recently, the Supreme Court in two different judgments has raised concerns about the menace of criminalisation in politics.
 - The criminalization of politics means the **participation of criminals in politics** which includes that criminals can contest in the elections and get elected as members of the Parliament and the State legislature. It takes place primarily due to the **nexus between politicians and criminals**.
- In one case, it found nine political parties guilty of contempt for not following in letter and spirit its February 13, 2020 direction. The February 2020 order required political parties to publish details of criminal cases against their candidates on their websites, a local vernacular newspaper, national newspaper, and social media accounts. This is to be done within 48 hours of candidate selection or not less than two weeks before the first date for filing of nominations, whichever is earlier.
- In another case, it has issued directions that **no criminal case against MPs or MLAs can be withdrawn without approval of the High Court of the concerned state**.

Landmark Decisions in Decriminalising Politics:

- In 2002, the Supreme Court, in **Association for Democratic Reforms (ADR) v. Union of India**, mandated the **disclosure of information relating to criminal antecedents**, educational qualification, and personal assets of a candidate contesting elections.
- The Supreme Court in the **Lily Thomas v. Union of India (2013) case**, struck down as **unconstitutional Section 8(4) of the Representation of the People Act** that allowed convicted lawmakers a three-month period for filing appeal to the higher court and to get a stay on the conviction and sentence.
- In **People's Union for Civil Liberties v. Union of India (2013)**, the SC recognised **negative voting as a constitutional right** of a voter and directed the Government to provide the ‘NOTA’ option in electronic voting machines.

- In **Public Interest Foundation and Ors. v Union of India (2014)** based on recommendations made by the **Law Commission in its 244th report**, the SC had ordered that trials, in relation to sitting MPs and MLAs be concluded within a year of charges against them being framed.
- The Supreme Court's decision on information disclosure (**Lok Prahari v. Union of India, 2018**) paves a way for **future constitutional interventions in India's political party funding regime**, including the scheme of electoral bonds.

Hence, both statements 1 and 2 are correct.

54. (c)

Explanation:

- The Bardoli Satyagraha sparked off in **January 1926** when the authorities decided to increase the land revenue by **30 per cent. Hence, statement 1 is correct.**
- The Congress leaders were quick to protest and a **Bardoli Inquiry Committee** was set up to go into the issue.
- The committee found the revenue hike to be unjustified. In February 1926, **Vallabhbhai Patel** was called to lead the movement. The women of Bardoli gave him the title of **"Sardar". Hence, statement 2 is correct.**
- Under Patel, the Bardoli peasants resolved to refuse payments of the revised assessment until the Government appointed an independent tribunal or accepted the current amount as full payment.
- An **intelligence wing was set up** to make sure all the tenants followed the movement's resolutions. Those who opposed the movement faced social boycott. **Hence, statement 3 is correct.**

55. (c)

Explanation:

- Recently, the **60th Public Enterprises (PE) Survey 2019-20** was released by the **Department of Public Enterprises (DPE), Ministry of Finance. Hence, statement 1 is correct.**
- According to DPE, CPSEs means those Government companies, besides Statutory Corporations, wherein more than **50% of the share in equity is held by the Central Government.**

- The subsidiaries of these companies, if registered in India, are also categorized as CPSEs. **It does not cover departmentally run public enterprises, banking institutions, and insurance companies.**
- The Highlights of the performance of Central Public Sector Enterprises (CPSEs), during 2019-20 are as under-
- Total Paid-up Capital in all CPSEs as on 31.3.2020 stood at Rs 3,10,737 crore.
- Total Financial Investment in all CPSEs was Rs 21,58,877 crore.
- Capital Employed in all CPSEs was Rs 31,16,455 crore.
- Gross Revenue from Operations of 256 operating CPSEs during the Financial Year 2019-20 was Rs 24,61,712 crore.
- Profit of 171 profit-making CPSEs stood at Rs 1,38,112 crore in Financial Year 2019-20.
- Loss of 84 loss-making CPSEs was Rs 44,817 crore in Financial Year 2019-20.
- Reserves and Surplus of all CPSEs stood at Rs 9,57,579 crore as on March 31, 2020.
- **The Net Worth of all CPSEs was Rs 12,35,706 crore as on March 31, 2020. Hence, both the statements are correct. Hence, statement 2 is correct.**
- Dividend declared/paid by 105 CPSEs in Financial Year 2019-20 stood at Rs 72,136 crore.
- Contribution of all CPSEs to Central Exchequer by way of excise duty, custom duty, GST, corporate tax, interest on Central Government loans, dividend, and other duties and taxes stood at Rs 3,76,425 crore in Financial Year 2019-20.
- Foreign Exchange Earnings of CPSEs through export of goods and services stood at Rs 1,21,756 crore in Financial Year 2019-20.

56. (c)

Explanation:

The Rowlatt Act:

- It was officially called the **Anarchical and Revolutionary Crimes Act**, but popularly known as the Rowlatt Act.
- It was based on the recommendations made to the **Imperial Legislative Council** by the **Rowlatt Commission**, headed by the British judge, **Sir Sidney Rowlatt**, to investigate the 'seditious conspiracy' of the Indian people. **Hence, statement 2 is correct.**

- All the elected Indian members of the Imperial Legislative Council voted against the bill but they were in a minority and easily overruled by the official nominees.
- All the elected Indian members—who included Mohammed Ali Jinnah, Madan Mohan Malaviya and Mazhar Ul Haq – resigned in protest.
- The act allowed political activists to be tried without juries or even imprisoned without trial. It allowed arrest of Indians without warrant on the mere suspicion of ‘treason’.
- Such suspects could be tried in secrecy without recourse to legal help. **Hence, statement 1 is correct.**
- A special cell consisting of three high court judges was to try such suspects and there was no court of appeal above that panel.
- This panel could even accept evidence not acceptable under the Indian Evidences Act.

57. (d)

Explanation:

Ishwar Chandra Vidyasagar as :

- **An Educationist:** In 1846, Vidyasagar joined the Sanskrit College as ‘Assistant Secretary’. Within a year, he introduced a number of changes to the existing education system.
- During his tenure as the **Principal of Sanskrit College** from 1851 to 1858, Vidyasagar initiated unprecedented changes in both administration and education.
- At a time when there was no concept of **universal education**, Vidyasagar strongly believed that everyone irrespective of **caste or gender**, had the right to education.
- He even opened up the premises of the Sanskrit college for the **depressed classes**.
- He also encouraged scholars to study ancient sacred texts and interpret them for contemporary usage.
- He established **20 model schools in Hooghly, Midnapore, Burdwan and Nadia**.
 - He supervised the schools, recruited teachers and formulated their syllabus.
 - He revised the exam pattern by introducing monthly exams instead of annual ones.
 - He also introduced the study of English, Western Sciences and Mathematics.

○ He initiated the acceptance of admission fees and tuition fees. He also introduced ‘Sunday’ as the weekly holiday, and summer vacation in the months of May and June.

- He brought about a revolution in the Bengali education system by changing the way Bengali language was written and taught. **Hence, statement 1 is correct.**
- He was a prominent figure of **Bengal Renaissance** – a cultural, social, intellectual and artistic movement in Bengal from the 19th century to the early 20th century.
- It was the result of his untiring struggle that the then Government of India passed the Widow Remarriage Act in 1856. **With the purpose of gathering people’s support for the implementation of the provision of remarriage of widows, he encouraged his own son, Narayan Chandra Bandyopadhyaya to marry a widow.** He fought for women education and vigorously challenged the barbaric practice of child marriage. **Hence, statement 2 is correct.**
- Some of his works are: **Betaal Panchavinsati (1847)**, Banglar Itihaas (1848), Jivancharita (1849), Shakuntala (1854), Mahabharata (1860), Seetar Vanavas (1860), Bhrantivilaas (1869), Oti Alpa Hoilo (1873), Aabaar Oti Alpa Hoilo (1873), Brajavilaas (1884), Ratnopariksha (1886). **Hence, statement 3 is correct.**

58. (b)

Explanation:

- The Hydrocarbon Exploration and Licensing Policy (HELP) replacing the erstwhile New Exploration Licensing Policy (NELP) was approved in March 2016 and the Open Acreage Licensing Policy (OALP) along with the National Data Repository (NDR) were launched in June 2017 as the key drivers to accelerate the Exploration and Production (E&P) activities in India. **Hence, statement 1 is NOT correct.**
- Under OALP, companies are allowed to carve out areas in which they want to explore oil and gas. **Hence, statement 2 is correct.**
- Companies can put in an expression of interest (EOI) for any area throughout the year but such interests are accumulated thrice in a year. The areas sought are then offered for bidding.
- This policy is different from the past where the government identified areas and offered them for bidding.

59. (c)

Explanation:

- The Congress was described as ‘a factory of sedition’ and Congressmen as ‘disappointed candidates for office and discontented lawyers who represent no one but themselves.’
- In 1888, Dufferin, the Viceroy, attacked the National Congress in a public speech and ridiculed it as representing **only the elite ‘a microscopic minority.’** George Hamilton, Secretary of State for India, accused the Congress leaders of possessing ‘seditious and double sided character.’ Hence, option (c) is correct.

60. (a)

Explanation:

- Recently, the **National Institute of Animal Biotechnology (NIAB), Hyderabad** has launched a chip called IndiGau.
- NIAB is an Indian autonomous research establishment of the **Department of Biotechnology, Ministry of Science and Technology.**

Conservation of cows

- IndiGau is India's first Cattle Genomic Chip for the conservation of pure varieties of indigenous cattle breeds like Gir, Kankrej, Sahiwal, Ongole, etc. Hence, option (a) is correct.
- IndiGau is purely indigenous and the largest cattle chip in the world.
- The Chip aims to achieve the goal of conservation of our own breeds with better characteristics and help towards doubling farmers' income by 2022.

- The manufacturing of this chip is in synergy with **Rashtriya Gokul Mission** and a great example of **Atmanirbhar Bharat.**

● Importance of Indigenous Breeds:

- Indigenous bovines are robust and resilient and are particularly suited to the climate and environment of their respective breeding tracts and productivity of indigenous breeds is less likely to be impacted by the adversities of climate change.
- The milk of indigenous animals is high in fat and Solids Not Fat (SNF) content.
- ◆ SNF content are the substances in milk other than butterfat and water in the form of casein, lactose, vitamins, and minerals which contribute significantly to the nutritive value of milk.

61. (a)

Explanation:

- In Awadh, around 1918-1919 peasants were led by **Baba Ramchandra** – a sanyasi who had earlier been to Fiji as an indentured labourer. The movement here was against talukdars and landlords who demanded from peasants exorbitantly high rents and a variety of other cesses.
- Peasants had to do **begar** and work at landlords' farms without any payment. As tenants they had no security of tenure, being regularly evicted so that they could acquire no right over the leased land.
- The peasant movement demanded reduction of revenue, abolition of begar, and social boycott of oppressive landlords. Hence, statement 1 is correct.
- In many places nai – dhobi bandhs were organised by panchayats to deprive landlords of the services of even barbers and washermen.
- In June 1920, Jawaharlal Nehru began going around the villages in Awadh, talking to the villagers, and trying to understand their grievances.
- By October, the **Oudh Kisan Sabha** was set up headed by **Jawaharlal Nehru, Baba Ramchandra and a few others.** Within a month, over 300 branches had been set up in the villages around the region.
- So when the Non Cooperation Movement began the following year, the effort of the Congress was to integrate the Awadh peasant struggle into the wider struggle. The peasant movement, however, developed in forms that the Congress leadership was unhappy with.

641, 1st floor, Mukherjee

Phone : 8448485518, 011-47532596, 8750187501 :: www.drishtiIAS.com

- As the movement spread in 1921, the houses of talukdars and merchants were attacked, bazaars were looted, and grain hoards were taken over.
The Tory government in Britain constituted a Statutory Commission under Sir John Simon.
- Set up in response to the nationalist movement, the commission was to look into the functioning of the constitutional system in India and suggest changes
- The problem was that the commission did not have a single Indian member. They were all British.
- When the Simon Commission arrived in India in 1928, it was greeted with the slogan 'Go back Simon'. All parties, **including the Congress and the Muslim League, participated in the demonstrations. Hence, statement 2 is NOT correct.**
- In an effort to win them over, the viceroy, Lord Irwin, announced in October 1929, a vague offer of 'dominion status' for India in an unspecified future, and a Round Table Conference to discuss a future constitution.

62. (d)

Explanation:

Wavell Plan

The idea was to reconstruct the governor-general's executive council pending the preparation of a new constitution.

For this purpose, a conference was convened by the viceroy, **Lord Wavell, at Shimla in June 1945.**

The main proposals of the Wavell Plan were as follows.

- With the exception of the governor-general and the commander-in-chief, **all members of the executive council were to be Indians.**
- **Caste Hindus and Muslims** were to have **equal representation.**
- The reconstructed council was to function as an interim government within the framework of the **1935 Act.**
- The governor-general was to exercise his veto on the advice of ministers.
- Representatives of different parties were to submit a joint list to the viceroy for nominations to the executive council. If a joint list was not possible, then separate lists were to be submitted.
- Possibilities were to be kept open for negotiations on a new constitution once the war was finally won.

Hence, both statements 1 and 2 are NOT correct.

63. (a)

Explanation:

- 200 Van Dhan Producer Companies are planned to be set up in 27 States during 2020-21 to 2025-26 with priority in Aspirational Districts under Van Dhan programme of TRIFED. **Hence, statement 1 is correct.**
- **It is worth mentioning that a Van Dhan Producer Company existing in Jawadhu Hills in Tiruvannamalai district, Tamil Nadu** since 2020 is a noteworthy example of how this initiative benefits the tribals **and promotes tribal entrepreneurship. Hence, statement 2 is correct.**
- To help these tribals empower themselves and gain better opportunities and market access, the Jawadhu Hills Tribal Farmer Producer Company was formed in 2020.
- It falls under the state Balanced Growth Fund for Value Addition of Non-Timber forest Products and Agricultural Products of Jawadhu hills, Tiruvannamalai District (SPV).
- The Company has been formed under the **Companies Act 2013** and is limited by shares **first of its kind in India. Hence, statement 3 is NOT correct.**
- It consists of members of **farmer's interest groups, producer groups, and self-help groups** that have been formed at the community level. The entire team of directors and key managerial persons of the FPO are tribals.

64. (c)

Explanation:

- Recently, some environmentalists demanded that Tamil Nadu's Kadavur Reserve Forest be declared as a Wildlife Sanctuary in order to conserve **Slender Loris (Loris tardigradus).**

641, 1st floor, Mukherjee

Copyright – Drishti The Vision Foundation

- The Slender Lorises (Loris) are a genus of loris native to **India and Sri Lanka**. Hence, **statement 1 is NOT correct**.
- The Slender Loris is a **small, nocturnal primate**.
- It prefers to inhabit thick, thorny bushes and bamboo clumps where it can evade predators and also find insects, which is the main diet. Apart from insects they are also known to eat leaves, flowers, slugs and sometimes eggs of birds.
- These animals are **about 25 cm long** and have long, thin arms. They weigh around **275 grams**. They have a small, vestigial tail. Their most prominent feature is the pair of two large, closely set, brown eyes.
- They spend most of their life in trees, traveling along the tops of branches with **slow and precise movements**. Hence, **statement 3 is correct**.
- They are known to be very social at dusk and dawn, interacting with others of their own.
- Among the strange habits they have is the urine washing of their face and limbs, which is thought to soothe or defend against the sting of the toxic insects they prefer to eat.
- **These animals face a threat from poachers due to the misplaced belief that these animals have magical and medicinal powers**. This hunting, along with destruction of their habitat, is their major threat. Hence, **statement 2 is correct**.
- IUCN has listed them as **Endangered**, whereas they are listed under the **Schedule I** of the Wildlife (Protection) Act of India, 1972, according them the highest level of legal protection.

Kadavur Reserve Forest:

- The forest is **located in Karur district of Tamil Nadu** with a forest area of around 6000-hectare. The forest consists of **hills and dense dry areas**.
- **Indian Bison, Spotted Deer**, mouse deer, slender loris, **Jackal, Mongoose**, black naped hare, wild boar, porcupine, monitor lizard, **Pangolin, Monkeys**, pythons, etc are found in the forests.
- They are found in tropical rainforests, scrub forests, semi-deciduous forests, and swamps.

65. (a)

Explanation:

- **On November 2, 1929**, a conference of prominent national leaders issued a '**Delhi Manifesto**' which put forward certain conditions for attending the **Round**

Table Conference (RTC). These were:

- The purpose of the Round Table Conference should not be to determine whether or when dominion status was to be reached.
- That the Congress should have majority representation at the conference; and
- There should be a general amnesty for political prisoners and a policy of conciliation.

Hence, **statement 1 is correct**.

- B.R. Ambedkar participated in **all three Round table conferences** as the representative of the depressed classes. Hence, **statement 2 is NOT correct**.
- In 1930, the FICCI advised its members to boycott RTC unless such a **conference is attended by Mahatma Gandhi** or at least has its approval. This was partially because capitalists did not want India to present a divided front at the RTC. Mahatma Gandhi attended only in the second Round Table Conference. Hence, **statement 3 is NOT correct**.

66. (d)

Explanation:

- Recently, the Ministry of Commerce and Industry has announced rates of tax refunds under the Remission of Duties and Taxes on Exported Products (RoDTEP) scheme for 8,555 products for the FY 2021-22.
- It was started in January 2021 as a **replacement for the Merchandise Export from India Scheme (MEIS)**, which was not compliant with the rules of the World Trade Organisation. Hence, **statement 1 is correct**.
- RoDTEP is based on the globally accepted principle that taxes and duties should not be exported, and taxes and levies borne on the exported products should be either exempted or remitted to exporters.
- **Scheme's objective is to refund, currently un-refunded:**
 - Duties/ taxes/ levies, at the Central, State & local level, borne on the exported product, including prior stage cumulative indirect taxes on goods & services used in production of the exported product, and
 - Such indirect Duties/ taxes/ levies in respect of distribution of exported products.
- **As per the WTO norms, a country can't give export subsidies like MEIS if per capita income is above**

641, 1st floor, Mukherjee

Copyright – Drishti The Vision Foundation

1000 USD and India's per capita income crossed above 1000 USD in 2017. India subsequently lost the case at WTO and had to come up with a new WTO compliant scheme to help Indian exporters. **Hence statement 2 is correct.**

- **For garment exporters**, the Rebate of State and Central Levies and Taxes (RoSCTL) Scheme has been notified separately. **Hence, statement 3 is correct.**

67. (c)

Explanation:

Vernacular Press Act, 1878

The provisions of the Act included the following.

1. The **District Magistrate** was empowered to call upon the printer and publisher of any vernacular newspaper to enter into a bond with the **government undertaking not to cause disaffection against the government.**
 2. The Magistrate's action was final and **no appeal** could be made in a court of law. **Hence, statement 1 is correct.**
 3. A vernacular newspaper could get an exemption from the operation of the Act by submitting proofs to a government censor. The Act came to be nicknamed "**the gagging Act**". **Hence, statement 2 is correct.**
- Under Vernacular Press Act, proceedings were instituted against Som Prakash, Bharat Mihir, Dacca Prakash and Samachar. (Incidentally, the Amrita Bazar Patrika turned overnight into an English newspaper to escape the Vernacular Press Act.)
 - Later, the pre-censorship clause was repealed, and a press commissioner was appointed to supply authentic and accurate news to the press.
 - There was strong opposition to the Act and finally **Lord Ripon repealed it in 1882.**

68. (c)

Explanation:

- The social base of the Swadeshi Movement extended to include a certain **zamindari section, the lower middle class in the cities and small towns and school and college students on a massive scale.** Women came out of their homes for the first time and joined processions and picketing.
- It is argued that the movement was unable to make much headway in mobilizing the **peasantry especially** its lower rungs except in certain areas, such as the district of Barisal.

- The main drawback of the Swadeshi Movement was that it was not able to garner the support of the mass of Muslims and especially of the **Muslim peasantry.** The British policy of consciously attempting to use communalism to turn the Muslims against the Swadeshi Movement was to a large extent responsible for this. **Hence, statement 1 is correct.**
- While elaborating on Tagore's view of the Swadeshi movement, Guha quotes from a rare 1908 letter written by Tagore to a friend — "**Patriotism cannot be our final spiritual centre, I will never allow patriotism to triumph over humanity.**"
- **Tagore was critical of the developments during the Swadeshi movement**, considering them "xenophobic, chauvinistic". **Hence, statement 2 is correct.**

69. (c)

Explanation:

- Recently, the **National Centre for Coastal Research (NCCR)** under the Ministry of Earth Science has published a report that said one-third of India's coastline underwent sea erosion in 28 years. As much as 32% of India's coastline underwent sea erosion and 27% of it expanded between 1990 and 2018.

India's Coastline:

- The country's coastline is 6,631.53 kilometres long which is surrounded by the Arabian Sea in the west, Bay of Bengal in the east, and the Indian Ocean in the south.
- Out of the total coastline, 2135.65 kilometres was subject to varying degrees of erosion and 1,760.06 km expanded during this period while nearly 2,700 km of the coastline is stable.

Coastal Erosion:

- 60% of the coastline of West Bengal underwent erosion during the period followed by Puducherry (56%), Kerala and Tamil Nadu at 41% and 41%, respectively.
 - The eastern coast sees a lot of rain which keeps the seas rough through most of the year. Besides the Southwest Monsoon (June to September), the eastern coast also witnesses the Northeast Monsoon from October to December and brings rain to coastal Andhra Pradesh and Tamil Nadu. **The eastern coast underwent more erosion due to frequent cyclonic**

Copyright – Drishti The Vision Foundation

activities from the Bay of Bengal in the past three decades, compared to the western coast, which remained largely stable.

Hence, both statements 1 and 2 are correct.

70. (b)

Explanation:

- Sir Courtney Ilbert, a law member of the Viceroy's Council, introduced a progressive Bill in the Legislative Council in 1883 during the Viceroyalty of Lord Ripon.
- **The bill provided for the trial of British or European persons by Indians and sought equality between British and Indian judges in the country.**
- It led to a huge protest in the white community. They questioned the ability of Indians to try whites. The Ilbert Bill protests were countered by the Indians.
- However, the Bill was amended to appease the Britishers.
- It gave the European British subjects, accused of criminal offence, the right to claim trial by Jury. This Jury was to be a mixed one of which no less than half of the members had to be either European or American.

Hence, option (b) is correct.

71. (c)

Explanation:

- Recently, the Delhi Police Commissioner inaugurated a Community Policing Programme 'Ummeed'.
- The essence of Community Policing is to minimize the gap between policemen and citizens to such an extent that the policemen become an integrated part of the community they serve.
- It is defined as **a law enforcement philosophy that allows police to continuously operate in the same area in order to create a stronger bond with the citizens living and working in that area. Hence, both statements are 1 and 2 correct.**
- The Basic Principle Underlying Community Policing is that 'A Policeman is a Citizen with Uniform and a Citizen is a Policeman without Uniform'.
- It helps in reducing the trust deficit between police and public as it requires the police to work with the community for prevention and detection of crime, maintenance of public order, and resolving local

conflicts, with the objective of providing a better quality of life and sense of security.

- **The benefits of the Community Policing are as follows:**

- I. No government funds are required
- II. It assists traditional policing
- III. It bridges the trust gap
- IV. Police officers feel safe in their area of responsibility
- V. Police and public become accountable to each other
- VI. It promotes democratic values in the society

72. (b)

Explanation:

- Barindra Kumar Ghosh or popularly known as Barin Ghosh was an Indian revolutionary and journalist. He was one of the founding members of **Jugantar**, a revolutionary outfit in Bengal. **Barindra Ghosh was a younger brother of Sri Aurobindo.**
- **The Anushilan Samiti was formed in 1902 by Pramathanath Mitra**, a barrister and a proponent of Indian nationalism.
- While on the surface, the Anushilan Samiti functioned as a social club for fitness, it operated as an underground society for anti-British revolutionaries.
- Along with **Mitra, Aurobindo Ghosh and his brother Barindra Kumar Ghosh were instrumental in helping the Anushilan Samiti** to grow and spread throughout Bengal. **Hence, statement 1 is NOT correct.**
- In **1906, Barindra Kumar Ghosh, Bhupendranath Dutt, Abinash Chandra Battacharya** and other revolutionary leaders in Bengal launched a weekly magazine to promote the work of the Anushilan Samiti. Several revolutionaries who wrote for Jugantar were arrested for their writings.
- In his teenage, Savarkar formed a youth organization known as **Mitra Mela**, this organization was put into place to bring in national and revolutionary ideas. He also founded Abhinav Bharat Society. **Hence, statement 2 is correct.**
- He was against foreign goods and **propagated the idea of Swadeshi**. In 1905, he burnt all the foreign goods in a bonfire on Dussehra.

Copyright – Drishti The Vision Foundation

**73. (d)****Explanation:****Cripps Mission (March 1942)**

- It offers—
 - an Indian Union with dominion status, with the right to withdraw from Commonwealth. **Hence, statement 3 is correct.**
 - after the war, a constituent assembly elected by provincial assemblies to frame the constitution.
 - freedom to any province unwilling to join the Union to have
 - a separate agreement with Britain.
 - Meanwhile, the defence of India remains in British hands. **Hence, statement 2 is correct.**

Why the Cripps Mission Failed:

- **The Congress objects to—**
 - dominion status
 - right of provinces to secede
 - no immediate transfer of power
 - retention of governor-general's supremacy.
- **The Muslim League objects to—**
 - Pakistani not being explicitly offered. **Hence, statement 1 is NOT correct.**
 - the machinery for the creation of Constituent Assembly.

74. (b)**Explanation:**

- Recently, researchers at the Lawrence Livermore National Laboratory (which operates the National Ignition Facility in California, US) appeared to have demonstrated **"fusion ignition"** for the first time.
- The researchers applied laser energy on fuel pellets to heat and pressurise them at conditions similar to that at the center of our Sun. This triggered the fusion reactions. These reactions released **positively charged particles called alpha particles (Helium)**, which in turn heated the surrounding plasma. **Hence, option (b) is correct.**
- The heated plasma also released alpha particles and a self-sustaining reaction called ignition took place. Ignition helps amplify the energy output from the nuclear fusion reaction and this could help provide clean energy for the future.

Significance of the Experiment:

- Reproducing the conditions at the center of the Sun will allow studying: Plasma, the state of matter that has never been created in the lab before.
- Gain insights into quantum states of matter.
- Conditions closer and closer to the beginning of the Big Bang.

Nuclear Fusion:

- Nuclear fusion is defined as the combining of several small nuclei into one large nucleus with the subsequent release of huge amounts of energy.
 - It is the opposite reaction of fission, where heavy isotopes are split apart.
- Harnessing fusion, the process that powers the Sun, could provide a limitless, clean energy source.
 - In the sun, the extreme pressure produced by its immense gravity creates the conditions for fusion to happen.
- Fusion reactions take place in a state of matter called plasma. Plasma is a hot, charged gas made of positive ions and free-moving electrons that has unique properties distinct from solids, liquids and gases.
- At high temperatures, electrons are ripped from atom's nuclei and become a plasma or an ionised state of matter. Plasma is also known as the fourth state of matter.

75. (a)**Explanation:****Ghadar**

- Ghadar means Revolt. On 1 November 1913, the first issue of Ghadar, in Urdu was published and on 9 December, the Grumukhi edition.
- The most powerful impact was made by the poems that appeared in The Ghadar, soon collected and published as Gadar di Goonj and distributed free of cost.
- These poems were marked as much by their secular tone as by their revolutionary zeal, as the following extract demonstrates:
 - Hindus, Sikhs, Pathans and Muslims, Pay attention ye all people in the army. Our country has been plundered by the British, We have to wage a war against them. We do not need pandits and quazis, We do not want to get our ship sunk. The time of worship is over now, It is time to take up the sword. **Hence, statement 1 is correct.**

Copyright – Drishti The Vision Foundation

- The Ghadar was circulated widely among Indians in North America, and within a few months it had reached groups settled in the Philippines, Hong Kong, China, the Malay States, Singapore, Trinidad, the Honduras, and of course, India.
- Unsurprisingly, The Ghadár, succeeded, in a very brief time, in changing the self-image of the Punjabi immigrant from that of a loyal soldier of the British Raj to that of a rebel whose only aim was to destroy the British hold on his motherland.
- In 1914, three events influenced the course of the Ghadar movement: **the arrest and escape of Har Dayal, the Komagata Maru incident, and the outbreak of the First World War. Hence, statement 2 is correct.**
- Shore Committee was an organization set up by the local Indian community to assist the passengers of the Komagata Maru with food, provisions and legal challenges. It is also called as the Indian Shore Committee. **Hence, statement 3 is NOT correct.**

76. (a)

Explanation:

- The **viceroy, Lord Minto, and the Secretary of State for India, John Morley**, agreed that some reforms were due so as to placate the Moderates as well as the Muslims. They worked out a set of measures that came to be known as the **Minto-Morley Reforms** that translated into the **Indian Councils Act of 1909**.
- The main features of the Reform were as follows -
 - I. The elective principle was recognised for the non-official membership of the councils in India. **Indians were allowed to participate in the election of various legislative councils, though on the basis of class and community. Hence, statement 1 is correct.**
 - II. For the first time, **separate electorates for Muslims** for election to the central council was established. It proved to be the most detrimental step for India. **Hence, statement 4 is NOT correct.**
 - III. **The number of elected members in the Imperial Legislative Council and the Provincial Legislative Councils was increased.** In the provincial councils, a non-official majority was introduced, but since some of these non-officials were nominated and not elected, the overall non-

elected majority remained. **Hence, statement 2 is correct.**

- IV. In the Imperial Legislative Council, of the total 69 members, 37 were to be the officials and of the 32 non-officials, 5 were to be nominated. Of the 27 elected non-officials, 8 seats were reserved for the Muslims under separate electorates (only Muslims could vote here for the Muslim candidates), while 4 seats were reserved for the British capitalists, 2 for the landlords, and 13 seats came under the general electorate.
- V. **The elected members were to be indirectly elected.** The local bodies were to elect an electoral college, which in turn would elect members of provincial legislatures, who in turn would elect members of the central legislature. **Hence, statement 3 is NOT correct.**
- VI. Besides separate electorates for the Muslims, representation in excess of the strength of their population was accorded to the Muslims. Also, the income qualification for Muslim voters was kept lower than that for Hindus.
- VII. Both at the center and in provinces **powers of legislatures were enlarged** and the legislatures could now pass resolutions (which may or may not be accepted), ask questions and supplementaries, vote separate items in the budget though the budget as a whole could not be voted upon.
- VIII. One Indian was to be appointed to the viceroy's executive council (**Satyendra Sinha** was the first Indian to be appointed in 1909).

77. (a)

Explanation:

- **Raja Rammohan Roy (1772-1833)** is often called the father of the Indian Renaissance and the maker of Modern India. He was a man of versatile genius.
- He believed in the **modern scientific approach and principles of human dignity and social equality.**
- He founded the **Brahmo Sabha in August 1828** which was later renamed as **Brahmo Samaj.**
- **The features of Brahmo Samaj were as follows:**
 - I. **It denounced polytheism and idol worship.** Roy put his **faith in monotheism.** He wrote **Gift to Monotheists (1809)** and translated into Bengali

the Vedas and the five Upanishads to prove his conviction that ancient Hindu texts support monotheism. **Hence, statement 1 is correct.**

II. It discarded faith in divine avatars (incarnations). The Samaj was committed to “the worship and adoration of the Eternal, Unsearchable, Immutable Being who is the Author and Preserver of the Universe”.

III. It denied that any scripture could enjoy the status of ultimate authority transcending human reason and conscience.

IV. It took no definite stand on the doctrine of karma and transmigration of the soul and left it to individual Brahmos to believe either way. **Hence, statement 2 is NOT correct.**

V. It criticised the caste system.

78. (b)

Explanation:

- Recently, the Supreme Court (SC) has ruled that a person belonging to a reserved category in an undivided state is **entitled to claim the benefit of reservation in either of the successor states**. However, he/she **cannot claim the benefit of the quota simultaneously in both the successor states** upon their reorganisation in November 2000 as it will defeat the mandate of Articles 341(1) and 342(1) of the Constitution. **Hence, statement 1 is NOT correct.**
- The court also said that those who are the members of the reserved category and are residents of the successor state while participating in open selection in the other state shall be treated to be migrants and they can participate in the general category without claiming the benefit of reservation and vice-versa. **Hence, statement 2 is correct.**

Constitutional Provisions Governing Reservation in India:

- Part XVI deals with reservation of SC and ST in Central and State legislatures.
- Article 15(4) and 16(4) of the Constitution enabled the State and Central Governments to reserve seats in government services for the members of the SC and ST.
- The Constitution was amended by the Constitution (77th Amendment) Act, 1995 and a new clause (4A) was inserted in Article 16 to enable the government to provide reservation in promotion.

- Later, clause (4A) was modified by the Constitution (85th Amendment) Act, 2001 to provide consequential seniority to SC and ST candidates promoted by giving reservation.
- Constitutional 81st Amendment Act, 2000 inserted Article 16 (4 B) which enables the state to fill the unfilled vacancies of a year which are reserved for SCs/STs in the succeeding year, thereby nullifying the ceiling of fifty percent reservation on total number of vacancies of that year.
- Article 330 and 332 provides for specific representation through reservation of seats for SCs and STs in the Parliament and in the State Legislative Assemblies respectively.
- Article 243D provides reservation of seats for SCs and STs in every Panchayat.
- Article 233T provides reservation of seats for SCs and STs in every Municipality.
- Article 335 of the constitution says that the claims of STs and SCs shall be taken into consideration constitutively with the maintenance of efficacy of the administration.
- The 103rd Constitution Amendment Act, 2019, empowered both Centre and the states to provide 10% reservation to the EWS (Economically Weaker Section) category of society in government jobs and education institutions.

79. (c)

Explanation:

Wood's Despatch (1854)

In 1854, Charles Wood prepared a despatch on an educational system for India. Considered the “**Magna Carta of English Education in India**”, this document was the first comprehensive plan for the spread of education in India.

1. It asked the government of India to **assume responsibility for the education of the masses**, thus repudiating the ‘**downward filtration theory**’, at least on paper.
2. It systematised the **hierarchy from vernacular primary schools in villages at the bottom**, followed by Anglo-Vernacular High Schools and an affiliated college at the district level, and affiliating universities in the presidency towns of Calcutta, Bombay and Madras.
3. It recommended **English as the medium of instruction** for higher studies and vernaculars at the school level. **Hence, statement 1 is correct.**

641, 1st floor, Mukherjee

Copyright – Drishti The Vision Foundation

4. It laid stress on **female and vocational education**, and on teachers' training. **Hence, statement 2 is correct.**
5. It laid down that the education imparted in government institutions should be secular.
6. It recommended a system of **grants-in-aid to encourage private enterprise.**

80. (b)

Explanation:

- For the first time, Bihar has decided to tag **Greater Adjutant Storks (Leptoptilos dubius)**, locally known as '**Garuda**', with GPS trackers to monitor their movement as a part of efforts to conserve them.
- The Bombay Natural History Society will help and work along with the state forest, environment and climate change department to start the process of tagging the bird with a GPS tracker.

Greater Adjutant Storks:

- The Greater Adjutant is a member of the stork family, Ciconiidae.
 - There are about 20 species in the family.
 - They are long-necked large birds.
- Their IUCN status is '**Endangered**' and they are categorized as **Schedule IV** animals in the Wildlife (Protection) Act 1972. **Hence, option (b) is correct.**
- Once found across South and Southeast Asia, the Greater Adjutant is one of the most threatened stork species in the world.
- The widespread destruction and degradation of the wetlands that this scavenger bird needs to forage (i.e. search for food) and the loss of its nesting trees, led to a decline.
- Bhagalpur's Kadiya Diara floodplains area is the third-most-popular breeding centre for the greater adjutant stork in the world after Assam and Cambodia.
- They are considered the mount of Vishnu, one of Hinduism's prime deities.
- Some worship the bird and call it "Garuda Maharaj" (Lord Garuda) or "Guru Garuda" (Great Teacher Garuda).
- These birds are helpful for farmers as they help them by killing rats and other farm pests.

81. (a)

Explanation:

- **Portuguese were the first Europeans to come to India** with the arrival of three ships under Vasco Da Gama that was led by a Gujarati pilot named Abdul Majid, at Calicut in **May 1498**. **Hence, statement 1 is NOT correct.**
- This expedition of Portuguese ships set out for India in 1497 and arrived in India in slightly less than eleven months' time, in May 1498.
- **The Hindu ruler of Calicut, the Zamorin (Samoothiri);** had no apprehensions as to the European's intentions; **accorded a friendly reception to Vasco Da Gama. Hence, statement 2 is correct.**
- Vasco da Gama stayed in India for three months. When he returned to Portugal, he carried back with him a rich cargo and sold the merchandise in the European market at a huge profit.
- He once again came to India in **1501** and he set up a trading factory at **Cannanore**. Gradually, **Calicut, Cannanore, and Cochin** became the important **trade centers of the Portuguese**. **Hence, statement 3 is NOT correct.**
- Gradually, under the pretext of protecting the factories and their trading activities, the Portuguese got permission to fortify these centers.

82. (b)

Explanation:

Regulating Act of 1773

- This act was the first step taken by the British to control the affairs of the East India Company in India. It recognised the **political and administrative functions of the Company** and laid the foundations of central administration in India.

Features of the Act

- It designated the Governor of Bengal as the '**Governor-General of Bengal**' and created an Executive Council of four members to assist him. The first Governor-General was **Lord Warren Hastings**.
- Under it the Governors of Madras and Bombay presidencies became subordinate to the **Governor-General of Bengal**.
- It set up a **Supreme Court at Calcutta (1774)** comprising one Chief Justice and three other judges.

34

Phone : 8448485518, 011-47532596, 8750187501 :: www.drishtiIAS.com

- It barred the employees of the Company from private trade or accepting presents (bribes) from the native Indians.
- It increased the control of the British Government over the East India Company by stipulating that **the Court of Directors (governing body of the Company)** report its **revenue, civil, and military affairs in India**. Hence, **option (b) is correct**.

83. (d)

Explanation:

Chakma and Hajong Communities :

- They are ethnic people who lived in the **Chittagong Hill Tracts**, most of which are located in **Bangladesh**.
- **Chakmas** are predominantly **Buddhists**, while **Hajongs** are Hindus. They reside in Northeast India, West Bengal, Bangladesh and Myanmar.
- They fled erstwhile East Pakistan (now Bangladesh) in 1964-65 and came to India and settled in Arunachal Pradesh.
- Chakmas lost their land to the development of the Kaptai Dam on the Karnaphuli River, Bangladesh.
- Hajongs faced religious persecution as they were **non-Muslims and did not speak Bengali**. Hence, **option (d) is correct**.
- Recently, the Chakma organisations have opposed the proposed deportation of 60,000 people belonging to the Chakma and Hajong communities from Arunachal Pradesh.
- In **2015**, the **Supreme Court directed the Centre to grant citizenship to Chakma and Hajongs** who had migrated from Bangladesh in 1964-69.
- They did not directly come into the ambit of the **Citizenship Amendment Act, 2019 (CAA)** because Arunachal Pradesh is among the states exempted from the CAA since it has an Inner Line Permit to regulate the entry of outsiders.
 - The 2019 CAA amended the Citizenship Act of 1955 allowing Indian citizenship for Hindu, Sikh, Buddhist, Jain, Parsi, and Christian religious minorities who fled from the neighboring Muslim majority countries of Pakistan, Bangladesh and Afghanistan before December 2014 due to "religious persecution or fear of religious persecution". However, the Act excludes Muslims.

- Even as the original immigrants await citizenship, many of their descendants born in India who are eligible for citizenship by birth are struggling to enroll as voters. The **refugees were given voting rights in 2004**.
- For a very long time local people have been protesting against Chakmas and Hajongs because of their differing ethnicity.

84. (c)

Explanation:

- The Acts/Regulations were some of those steps that were taken by Britishers to ameliorate women's position in society because of the indefatigable efforts of the reformers. These are as follows :

I. Abolition of Sati - Influenced by the frontal attack launched by the enlightened Indian reformers led by **Raja Rammohan Roy**, the government declared the practice of Sati illegal and punishable by criminal courts as culpable homicide. The **regulation of 1829 (Regulation XVII, A.D. 1829 of the Bengal Code)** was applicable in the first instance to Bengal Presidency alone but was extended in slightly modified forms to Madras and Bombay Presidencies in 1830.

II. Widow Remarriage - The Brahmo Samaj had the issue of widow remarriage high on its agenda and did much to popularise it. But it was mainly due to the efforts of **Pandit Ishwar Chandra Vidyasagar (1820-91)**, the principal of Sanskrit College, Calcutta, that the **Hindu Widows' Remarriage Act, 1856**, was passed; it legalised marriage of widows and declared issues from such marriages as legitimate. Vidyasagar cited Vedic texts to prove that the Hindu religion sanctioned widow remarriage.

III. Controlling Child Marriage - The relentless efforts of a Parsi reformer, **B.M. Malabari** was rewarded by the enactment of the **Age of Consent Act (1891)** which forbade the marriage of girls below the age of 12.

IV. The Sarda Act (1930) - It further pushed up the marriage age to 18 and 14 for boys and girls, respectively. In free India, the **Child Marriage Restraint (Amendment) Act, 1978** further raised the age of marriage for girls from 15 to 18 years and for boys from 18 to 21.

Hence, **option (c) is correct**.

**85. (b)****Explanation:****Milky Sea Phenomenon:**

- It is also called **mareel**, it is a rare form of marine bioluminescence where the nocturnal ocean surface produces a widespread, **uniform and steady whitish glow**. Hence, **statement 1 is NOT correct**.
- About **two or three** milky seas occur per year **worldwide**, mostly in the waters of the northwest Indian Ocean and off the coast of Indonesia. Hence, **statement 2 is correct**.
- Sometimes exceeding 1,00,000 km² in surface area, it persists for days to weeks, drifting within doldrums amid the prevailing sea-surface currents and aligning with narrow ranges of sea-surface temperature and marine biomass in a way that suggests water mass isolation.
- The awareness of milky seas is recorded primarily from mariner sightings concentrated in the major shipping lanes.
- In 1995, the low-light satellite measurements provided the first overview of a milky sea, off the Somalia coast.

Cause of occurrence:

- It arises from a saprophytic relationship between luminous bacteria and microalgae that expresses on the macroscale. A strain of luminous bacteria called **Vibrio harveyi** colonizing algae at the water's surface has been found. Hence, **statement 3 is correct**.
- Luminous bacteria cause the particles they colonize to glow. The purpose of this glow could be to attract fish that eat them.
- These bacteria thrive in the guts of fishes, so when their populations get too big for their main food supply, a fish's stomach makes a great second option.

Instrument for Detection:

- **Operational Linescan System (OLS):** Carried by Defense Meteorological Satellite Program (DMSP) series of military weather satellites (US). This instrument is capable of detecting very weak light sources.
- **Day/Night Band (DNB):** It is planned for the US National Oceanic and Atmospheric Administration's and part of the Visible Infrared Imaging Radiometer Suite (VIIRS) and is carried on satellites.

86. (c)**Explanation:**

- The immediate cause for the rise of extremism in India is said to be the reactionary rule of Lord Curzon.
- The Indian Official Secrets Act, 1904 was enacted during the time of Lord Curzon, Viceroy of India from 1899 to 1905. Hence, **statement 2 is correct**.
- One of the main purposes of the Act was to muzzle the voice of nationalist publications.
- The Indian Official Secrets Act (Act No XIX of 1923) replaced the earlier Act, and was extended to all matters of secrecy and confidentiality in governance in the country.
- The Sedition Act and the Official Secrets Act reduced the freedoms of all people.
- Curzon took a serious view of the fall in the standard of education and discipline in the educational institutions.
- In his view the universities had degenerated into factories for producing political revolutionaries. To set the educational system in order, he instituted in 1902, a Universities Commission to go into the entire question of university education in the country.
- On the basis of the findings and recommendations of the Commission, Curzon brought in the Indian Universities Act of 1904, which brought all the universities in India under the control of the government. Hence, **statement 1 is correct**.
- He passed the Calcutta Corporation Act, (1899) reducing the Indian control of this local body.

87. (c)**Explanation:**

- **EASE Agenda:** It was launched in January 2018 jointly by the government and PSBs.
- It was commissioned through Indian Banks' Association and authored by the Boston Consulting Group.

Various Stages under EASE Reforms Agenda:

- **EASE 1.0:** The EASE 1.0 report showed significant improvement in Public Sector Bank (PSB) performance in resolution of Non Performing Assets (NPAs) transparently.
- **EASE 2.0:** EASE 2.0 was built on the foundation of EASE 1.0 and **introduced new reform Action Points across six themes** to make reforms journey irreversible, strengthen processes and systems, and drive outcomes.

641, 1st floor, Mukherjee
Nagar, Delhi 11000921, Pusa Road,
Karol Bagh, New Delhi13/15, Tashkent Marg, Near
Patrika Chauraha, Civil Lines, PrayagrajPlot No. 45-45A, Harsh Tower 2
Tonk Rd, Vasundhara Colony, Jaipur**36**Phone : 8448485518, 011-47532596, 8750187501 :: www.drishtiIAS.com

The six themes of EASE 2.0 are:

1. Responsible Banking;
2. Customer Responsiveness;
3. Credit Off-take,
4. PSBs as UdyamiMitra (SIDBI portal for credit management of MSMEs);
5. Financial Inclusion & Digitalisation;
6. Governance and Human Resource (HR)

Ease 3.0: It seeks to enhance ease of banking in all customer experiences, using technology viz.

- Dial-a-loan and PSBloansin59 minutes.com
- Partnerships with FinTechs and E-commerce companies
- Credit@click
- Tech-enabled agriculture lending
- EASE Banking Outlets etc.

EASE 4.0 is a common reform agenda for PSBs aimed at institutionalising clean and smart banking. It commits PSBs to **tech-enabled, simplified and collaborative banking** to further the agenda of **customer-centric digital transformation**.

Hence, option (c) is correct.

88. (c)

Explanation:

- **The revolt of 1857 marks a turning point in the history of India.** It led to far-reaching changes in the system of administration and the policies of the British government.
- Even before the Revolt could be suppressed fully, the British Parliament, on **August 2, 1858**, passed **an Act for the Better Government of India**. The Act declared **Queen Victoria as the sovereign of British India** and provided for the appointment of a **Secretary of State for India** (a member of the British cabinet). **Hence, statement 1 is correct.**
- The direct responsibility for the administration of the country was assumed by the British Crown and **Company rule was abolished. Hence, statement 2 is NOT correct.**
- The assumption of the Government of India by the sovereign of Great Britain was announced by **Lord Canning at a durbar at Allahabad** in the 'Queen's Proclamation' issued on **November 1, 1858. Hence, statement 3 is NOT correct.**

- It was by this proclamation that the governor-general acquired the additional title of '**Viceroy**'.
- Many of the promises made in that proclamation appeared to be of a positive nature to the Indians. As per the Queen's proclamation, the era of annexations and expansion had ended and the British promised to respect the dignity and rights of the native princes.
- The Indian states were henceforth to recognise the paramountcy of the British Crown and were to be treated as parts of a single charge.
- **The people of India were promised freedom of religion** without interference from British officials. **Hence, statement 4 is correct.**
- The proclamation also promised equal and impartial protection under the law to all Indians, besides equal opportunities in government services irrespective of race or creed.
- It was also promised that old Indian rights, customs, and practices would be given due regard while framing and administering the law.

89. (a)

Explanation:

- Recently, the Chief Minister of Delhi inaugurated the **country's first 'smog tower' in Connaught Place**. It is a technological aid to help combat air pollution. **Hence, statement 1 is correct.**
- The smog tower at Connaught Place (CP) is the first of these towers. The second tower, being constructed at Anand Vihar in east Delhi with **CPCB as the nodal agency**, is nearing completion.

Developed by:

- Tata Projects Limited (TPL) built it with technical support from IIT-Bombay and IIT-Delhi, which will analyse its data.
- National Biofuel Coordination Committee (NBCC) India Ltd is the project management consultant.
- Delhi Pollution Control Committee was in charge of the Project.

Components of the smog tower:

- The structure is 24 m high, about as much as an 8-storey building — an 18-metre concrete tower, topped by a 6-metre-high canopy. At its base are 40 fans, 10 on each side.

641, 1st floor, Mukherjee

Copyright – Drishti The Vision Foundation

- Each fan can discharge 25 cubic metres per second of air, adding up to 1,000 cubic metres per second for the tower as a whole.
- Inside the tower in two layers are 5,000 filters.

How it works:

- This tower uses a '**downdraft air cleaning system**' developed by the University of Minnesota, USA. **Hence, statement 2 is NOT correct.**
- Polluted air is sucked in at a height of 24 m, and filtered air is released at the bottom of the tower, at a height of about 10 m from the ground.
- When the fans at the bottom of the tower operate, the negative pressure created sucks in air from the top.
- The 'macro' layer in the filter traps particles of 10 microns and larger, while the 'micro' layer filters smaller particles of around 0.3 microns.
- The downdraft method is different from the system used in **China**, where a 60-metre smog tower in Xian city uses an '**updraft**' system — air is sucked in from near the ground, and is propelled upwards by heating and convection. Filtered air is released at the top of the tower.

Impact:

- Computational fluid dynamics modelling by IIT-Bombay suggests the tower could have an impact on the air quality **up to 1 km** from the tower. **Hence, statement 3 is NOT correct.**
- Levels of PM2.5 and PM10, besides temperature and humidity, will be measured constantly and will be displayed on a board atop the tower.

90. (a)

Explanation:

- The States Reorganisation Act of 1956 established the new state of Kerala by merging the Travancore – Cochin State with the Malabar District of Madras state and Kasargod of South Canara (Dakshina Kannada).
- It merged the **Telugu**-speaking areas of Hyderabad state with the Andhra state to create the Andhra Pradesh state. Andhra Pradesh was the first state established on linguistic basis on October 1, 1953. **Hence, statement 2 is NOT correct.**
- It merged the Madya Bharat state, Vindya Pradesh state and Bhopal state into the Madya Pradesh state.
- It merged the Saurashtra state and Kutch state into that of the Bombay state. **Hence, statement 1 is correct.**

- It merged the Coorg state into that of Mysore state; the Patiala and East Punjab States Union (Pepsu) into that of Punjab state; and the Ajmer state into that of Rajasthan state.
- It created the new union territory of Laccadive, Minicoy and Amindivi Islands from the territory detached from the Madras state.

91. (b)

Explanation:

- **Hindustan Aeronautics Limited's (HAL)** transport aircraft division at Kanpur is now manufacturing the Hindustan-228 aircraft to support the Regional Connectivity Scheme (UDAN) of the Government of India. **Hence, statement 1 is NOT correct.**
- Recently, HAL carried out a successful ground run and low-speed taxi trials of the commercial aircraft "Hindustan-228" (or Do-228).
- HAL is building civil aircraft to promote the UDAN (Ude Desh Ka Aam Nagrik) Scheme. The central government aims to set up 1,000 new air routes and establish 100 new airports, under the UDAN scheme.
- HAL is a public sector aircraft manufacturing company. It has also produced the Light Combat Aircraft (LCA) for the Indian Air Force (IAF).

Hindustan-228 (Do-228):

- The 19-seater Do-228 is the **first major attempt in India to develop a small civil transport aircraft** after the 14-seater Saras Aircraft development program at the National Aeronautics Laboratory (NAL) was shelved in 2009 on account of multiple problems in its development.
- It is built on the existing frame of the German Dornier 228 defence transport aircraft used by the defence forces. **Hence, statement 2 is correct.**
- Two civil Do-228 produced by HAL for launch under the UDAN scheme have a maximum take-off weight of 6200 kgs.
- It is equipped with a **digital cockpit** which will ensure more accurate readings, precise information and required data displays with feedback loops and capability for self-check to alert pilots in emergencies.
- It is conceived to be a **multi-role utility aircraft** capable of being used for VIP transport, passenger transport, air ambulance, flight inspection roles, cloud seeding, recreational activities like para jumping, aerial surveillance, photography, remote sensing and cargo transport.

- With a maximum cruise speed of 428 kmph and a range of 700 kmph the aircraft is **capable of night flying**. Hence, **statement 3 is NOT correct**.
- HAL is **looking forward to exporting the aircraft** as well to countries like Nepal.

UDAN Scheme:

- The scheme is aimed at enhancing connectivity to remote and regional areas of the country and making air travel affordable.
- It is a key component of the Centre's National Civil Aviation Policy and it was launched in **June 2016**.
- Under the scheme, nearly half of the seats in Udan flights are offered at subsidised fares, and the participating carriers are provided with a certain amount of viability gap funding (VGF) – an amount shared between the Centre and the concerned states.
- The scheme will be **jointly funded** by the central government and state governments.
- The scheme will run for 10 years and can be extended thereafter.

UDAN 4.0:

- The 4th round of UDAN was launched in **December 2019** with a special focus on North-Eastern Regions, Hilly States, and Islands.
- The airports that had already been developed by the Airports Authority of India (AAI) are given higher priority for the award of VGF (Viability Gap Funding) under the Scheme.
- Under UDAN 4, the operation of helicopters and seaplanes has also been incorporated.

92. (b)

Explanation:

- Bankim Chandra Chattopadhyay was born on **June 27, 1838**, in the village **Kantalpara of the 24 Parganas District of Bengal**. He was a famous Bengali poet, writer, and journalist.
- He wrote '**Anandamath**' (**published in 1882**), a semi-historical novel that is based on the **Sanyasi Revolt (late 18th century)**. 'Anandamath' became synonymous with India's struggle for freedom from the British who later banned it. Hence, **option (b) is correct**.
- The national song of India, '**Vande Mataram**' was originally published in this novel.

- Based upon this novel, "**Anand Math**" a Hindi Patriotic film was also released in 1952, directed by Hemen Gupta.
- Bankim Chandra is **credited with initiating the cultural resurgence of Bengal** by giving its people intellectually refreshing material to read, through his literary campaign.
- His famous novels include **Kapalkundala (1866), Mrinalini (1869), Chandrasekhar (1877), Devi Chaudhurani (1884)**, etc.
- He also published a monthly literary magazine called **Bangadarshan** in which he published novels, stories, humorous sketches, historical essays, informative articles, religious discourses, literary criticisms, and reviews.
- He inspired a number of prominent Indian personalities with his work and ideas. For example - Bipin Chandra Pal decided to start a patriotic journal in 1906, by the name of Vande Mataram, after Bankim's song and Lala Lajpat Rai also published a journal of the same name.

93. (c)

Explanation:

- The following table mentions some traditional Water Management systems and related ecological regions:

Traditional Water Management System	Ecological Region
Kul, Naula, Kuhl, Khatri	Western Himalaya
Apatani	Eastern Himalaya
Zing	Trans-Himalayan Region
Dongs / Dungs/ Jampoos	Brahmaputra Valley
Zabo	North-Eastern Hill Ranges
Ahars – Pynes, Bengal's Inundation Channels, Dighis, Baolis	Indo-Gangetic Plains
Kunds, Kuis/beris, Baoris / Ber/ Jhalaras, Nadi, Tobas, Tankas, Khandins, Vav/Bavadi, Virdas, Paar	The Thar Desert
Talab, Bandhis, Saza Kuva, Johads, Naada/Bandh, Pat, Rapat, Chandela Tank, Bundela Tank	Central Highlands

641, 1st floor, Mukherjee Nagar, Delhi 110009

21, Pusa Road, Karol Bagh, New Delhi

Cheruvu, Kohli Tanks, Bhandaras, Phad, Kere, The Ramtek Model	Deccan Plateau
Katas / Mundas / Bandhas	Eastern Highlands
Surangam	Western Ghats
Virdas	West Coastal Plains
Eri / Ooranis	Eastern Coastal Plains
Korambu	Eastern Ghats
Jack Wells	The Islands

Hence, option (c) is correct.

94. (c)

Explanation:

In the **Gudem Hills of Andhra Pradesh**, a militant guerrilla movement spread in the early 1920s – not a form of struggle that the Congress could approve.

- Here, as in other forest regions, the colonial government had closed large forest areas, preventing people from entering the forests to graze their cattle, or to collect fuelwood and fruits.
- This enraged the hill people. Not only were their livelihoods affected but they felt that their traditional rights were being denied.
- When the government began forcing them to contribute begar for road building, the hill people revolted. The person who came to lead them was an interesting figure.
- Alluri Sitaram Raju claimed that he had a variety of special powers: he could make correct astrological predictions and heal people, and he could survive even bullet shots.
- Captivated by Raju, the rebels proclaimed that he was an incarnation of God. **Raju talked of the greatness of Mahatma Gandhi, said he was inspired by the Non-Cooperation Movement, and persuaded people to wear khadi and give up drinking. Hence, statement 1 is correct.**
- But at the same time he asserted that India could be liberated only by the use of force, not non-violence. **The Gudem rebels attacked police stations, attempted to kill British officials and carried on guerrilla warfare for achieving swaraj. Hence, statement 2 is correct.**
- Raju was captured and executed in 1924, and over time became a folk hero.

95. (d)

Explanation:

- Pneumococcal disease refers to any illness caused by pneumococcal bacteria.
- **Streptococcus pneumoniae** is a **bacterium** that is the cause of a number of common diseases, ranging from serious diseases such as **meningitis, septicaemia and pneumonia to milder infections such as sinusitis and otitis media. Hence, option (d) is correct.**
- Anyone can get pneumococcal disease, but children under 2 years old, people with certain medical conditions, adults 65 years or older, and cigarette smokers are at the highest risk.
- Pneumococcal diseases are a **common cause of morbidity and mortality worldwide.**
- WHO recommends the inclusion of pneumococcal conjugate vaccines (PCV) in childhood **immunization programmes**, particularly in countries with high childhood mortality.
- Earlier in **December 2020**, India's first fully indigenously developed pneumococcal conjugate vaccine "**Pneumosil**" was launched.

Pneumococcal conjugate vaccine (PCV13):

- It can prevent pneumococcal disease. It protects against **13 types** of bacteria that cause pneumococcal disease.
- Infants and young children usually need 4 doses of pneumococcal conjugate vaccine, at ages 2, 4, 6, and 12–15 months. Older children (through age 59 months) may be vaccinated if they did not receive the recommended doses.
- A dose of PCV13 is also recommended for adults and children 6 years or older with certain medical conditions if they did not already receive PCV13.
- This vaccine may be given to healthy adults 65 years or older who did not already receive PCV13, based on discussions between the patient and health care provider.

Universal Immunization Programme:

- It was launched in **1985** in India to prevent mortality and morbidity in children and pregnant women against 12 vaccine-preventable diseases.
- Under UIP, **free of cost vaccination** is provided against **twelve vaccine-preventable diseases** i.e. Tuberculosis, Diphtheria, Pertussis, Tetanus, Polio, Hepatitis B, Pneumonia and Meningitis due to Haemophilus Influenzae type b (Hib), Measles, Rubella, Japanese Encephalitis (JE) and Rotavirus diarrhoea.

- The programme is **one of the largest health programmes** in the world. Despite being operational for many years, UIP has been able to fully immunize only 65% of children under 1 year of age.

96. (c)

Explanation:

National Planning Committee

- A National Planning Committee with Jawaharlal Nehru as the Chairman and K.T. Shah as the general editor was set up by the Indian National Congress at the Faizpur session of 1937. **Hence, statement 1 is correct.**
- The Committee started functioning in 1939, but it could not make much headway as the chairman was arrested by the British and World War II broke out.

Belgaum Session

- The 39th annual session of Indian National Congress took place in 1924. It was the only congress session presided over by Mahatma Gandhi. **Hence, statement 2 is correct.**

97. (b)

Explanation:

Censorship of Press Act, 1799

- Lord Wellesley enacted this, anticipating French invasion of India. **Hence, statement 2 is correct.**
- It imposed almost wartime press restrictions including pre-censorship.
- These restrictions were relaxed under Lord Hastings, who had progressive views, and in 1818, pre-censorship was dispensed with.

Press Act of 1835 or Metcalfe Act

- Lord Metcalfe (governor-general—1835-36) repealed the Licensing Regulation, 1823 and earned the title of , “liberator of the Indian press”. **Hence, statement 1 is NOT correct.**
- The new **Press Act (1835)** required a printer/publisher to give a **precise account of premises of a publication** and **cease functioning if required by a similar declaration**.
The result of a liberal press policy was a rapid growth of newspapers.

98. (a)

Explanation:

Charter Act of 1833

- It made the Governor-General of Bengal as the Governor-General of India and vested in him all civil and military powers. Thus, the act created, for the first time, a Government of India having authority over the entire territorial area possessed by the British in India. **Hence, statement 1 is correct.**
- Lord William Bentick was the first governor-general of India.
- It deprived the governor of Bombay and Madras of their legislative powers. The Governor-General of India was given exclusive legislative powers for the entire British India. **Hence, statement 2 is NOT correct.**
- The laws made under the previous acts were called as Regulations while laws made under this act were called as Acts. It ended the activities of the East India Company as a commercial body, which became a purely administrative body.
- It provided that the company's territories in India were held by the company 'in trust for His Majesty, His heirs and successors'.
- This Act attempted to introduce a system of open competition for selection of civil servants, and stated that the Indians should not be debarred from holding any place, office and employment under the Company. However, this provision was negated after opposition from the Court of Directors. It was under the Charter Act of 1853 that open competition was introduced. **Hence, statement 3 is NOT correct.**
- This act allowed wider space to the British in the India's administration. It ended the British India Company's commercial activities and transformed into the British Crown's trustee in administering India.

99. (d)

Explanation:

- The first Municipal Corporation in India was set up in the year 1687-88 as Madras Municipal Corporation (Chennai). **Hence, statement 1 is NOT correct.**
- Lord Ripon's Resolution of 1882 is known as 'Magna Carta' of Local Self-Government in India.
- He is also known as “Father of Local Self- Government” of India. **Hence, statement 2 is NOT correct.**

100. (d)

Explanation:

Home Rule League Movement

- Bal Gangadhar Tilak setup his Home Rule League at the Bombay Provincial Conference of the Indian National Congress (INC) held at Belgaum in April 1916.
- In Sept 1916 Annie Besant announced the formation of her Home Rule League, with **George Arundale**, her Theosophical follower, as the Organising Secretary.
- The Two leagues avoided any friction by demarcating their area of activity. Tilak's league was to work in Maharashtra (excluding Bombay), Karnataka, Central Provinces and Berar while Besant's league was given charge of the rest of India.

- In June 1917 the government of Madras decided to arrest Annie Besant and her associates B.P. Wadia and George Arundale. This led to nationwide protests and many prominent leaders like **Madan Mohan Malaviya**, Surendranath Banerjea and **M.A. Jinnah** became members of the Home Rule League.
 - Annie Besant was released in sept 1917 and was elected President (**First female to hold the post**) at the annual session of Congress in Dec 1917.
 - In 1920, the All India Home Rule League elected **Mahatma Gandhi** as its President. In a year, the body merged into the Indian National Congress to form a united Indian political front.
- Hence, option (d) is correct.**
