Test Booklet Series

TEST BOOKLET

C

GENERAL STUDIES (P) 2023 – Test – 3787

Time Allowed: Two Hours

Maximum Marks: 200

INSTRUCTIONS

1. IMMEDIATELY AFTER THE COMMENCEMENT OF THE EXAMINATION, YOU SHOULD CHECK THAT THIS BOOKLET DOES **NOT** HAVE ANY UNPRINTED OR TURN OR MISSING PAGES OR ITEMS, ETC. IF SO, GET IT REPLACED BY A COMPLETE TEST BOOKLET.
2. ENCODE CLEARLY THE TEST BOOKLET SERIES **A, B, C OR D** AS THE CASE MAY BE IN THE APPROPRIATE PLACE IN THE ANSWER SHEET.
3. You have to enter your Roll Number on the Test Booklet in the Box provided alongside. **Do NOT** write anything else on the Test Booklet.
4. This Test Booklet contains **100** items (Questions). Each item is printed in **English**. Each item comprises four responses (answers). You will select the response which you want to mark on the Answer Sheet. In case you feel that there is more than one correct response with you consider the best. In any case, choose **ONLY ONE** response for each item.
5. You have to mark all your responses **ONLY** on the separate Answer Sheet provided. See direction in the answers sheet.
6. All items carry equal marks. Attempt all items. Your total marks will depend only on the number of **correct responses** marked by you in the answer sheet. For **every incorrect** response **1/3rd** of the **allotted marks** will be deducted.
7. Before you proceed to mark in the Answer sheet the response to various items in the Test booklet, you have to fill in some particulars in the answer sheets as per instruction sent to you with your Admission Certificate.
8. After you have completed filling in all responses on the answer sheet and the examination has concluded, you should hand over to Invigilator only the answer sheet. You are permitted to take away with you the Test Booklet.
9. Sheet for rough work are appended in the Test Booklet at the end.

DO NOT OPEN THIS BOOKLET UNTIL YOU ARE ASKED TO DO SO

1. This soil develops on crystalline igneous rocks in areas of low rainfall in the southern and eastern parts of the Deccan Plateau. They are normally fertile, whereas in dry upland areas the soil has poor fertility due to coarse-grained structure. They are generally poor in humus, phosphorus, and nitrogen. The above-mentioned paragraph refers to which of the following soils?
- (a) Black soil
(b) Laterite soil
(c) Red and Yellow soil
(d) Alluvial soil
2. Consider the following statements regarding Khelo India scheme recently seen in the news:
1. Under this scheme, Khelo India State Centre of Excellence are planned to be set up in every district of the country.
 2. It is a central sector scheme of Ministry of Sports and Youth Affairs.
- Which of the statements given above is/are correct?
- (a) 1 only
(b) 2 only
(c) Both 1 and 2
(d) Neither 1 nor 2
3. With reference to black soils in India, consider the following statements:
1. These soils are widespread in the northern plains and the river valleys.
 2. They swell and become sticky when wet and shrink when dried.
- Which of the statements given above is/are correct?
- (a) 1 only
(b) 2 only
(c) Both 1 and 2
(d) Neither 1 nor 2

4. Consider the following features of China type of climatic region:
1. Year-round influence of on-shore trade winds.
 2. Fairly uniform annual distribution of rainfall.
- Which of the statements given above is/are correct?
- (a) 1 only
(b) 2 only
(c) Both 1 and 2
(d) Neither 1 nor 2
5. Which of the following statements is/are correct with reference to the inversion of temperature?
1. Dense fogs in winter mornings are caused due to temperature inversion.
 2. It is a feature of plains and is not observed on hilly terrains.
- Select the correct answer using the code given below.
- (a) 1 only
(b) 2 only
(c) Both 1 and 2
(d) Neither 1 nor 2
6. Consider the following statements:
1. India accounts for more than twenty percent of the world's land surface area.
 2. It is the seventh-largest country in the world on the basis of area.
 3. The latitudinal and longitudinal extent of India is roughly 60 degrees.
- Which of the statements given above is/are correct?
- (a) 1 and 2 only
(b) 3 only
(c) 2 only
(d) 1, 2 and 3

7. Consider the following statements:
1. The process of convective transfer of energy is mainly confined to the troposphere.
 2. The process of advection is responsible for diurnal variations in daily weather in the middle latitudes.

Which of the statements given above is/are correct?

- (a) 1 only
- (b) 2 only
- (c) Both 1 and 2
- (d) Neither 1 nor 2

8. Consider the following features of the Indian Peninsular block:

1. It was formed majorly out of ancient gneisses and granites.
2. The Thar desert in the west and Karbi Anglong plateau in the east are extensions of it.

Which of the statements given above is/are correct?

- (a) 1 only
- (b) 2 only
- (c) Both 1 and 2
- (d) Neither 1 nor 2

9. The movement of ocean currents is influenced by:

1. movement of winds
2. salinity of the ocean
3. coriolis force

Select the correct answer using the code given below.

- (a) 1 and 3 only
- (b) 2 and 3 only
- (c) 1 and 2 only
- (d) 1, 2 and 3

10. Which one of the statements regarding decomposition of organic matter in the soil is **not** correct?

- (a) Oxygen accelerates the process of decomposition.
- (b) Decomposition is faster if the detritus is rich in nitrogen.
- (c) The soil pH affects the process of decomposition.
- (d) Cool temperatures accelerates the process of decomposition.

11. Consider the following statements regarding the Peninsular plateau of India:

1. It is a continuous stable block devoid of any rift or divergent boundaries.
2. It is formed with a general gradient of the west to east.

Which of the statements given above is/are **not** correct?

- (a) 1 only
- (b) 2 only
- (c) Both 1 and 2
- (d) Neither 1 nor 2

12. "Relatively undisturbed by the crustal movements of the earth, formed by horizontally bedded rocks. These depressed areas make up some of the most extensive natural lowlands on earth's surface."

The statement given above describes best which of the following?

- (a) Peneplain
- (b) Pediplain
- (c) Structural plain
- (d) Coastal plain

13. With reference to Sheet Erosion, consider the following statements:
1. It takes place on level lands after a heavy shower.
 2. It removes the finer and more fertile topsoil.
 3. It leads to the formation of badland topography.
- Which of the statements given above are correct?
- (a) 1 and 2 only
 - (b) 2 and 3 only
 - (c) 1 and 3 only
 - (d) 1, 2 and 3
14. Which of the following best describes the process of "Lithification"?
- (a) It is process of formation of rocks through compaction of sediments.
 - (b) It is the process of erosion of rocks and their deposition in deltaic plains.
 - (c) It refers to the cooling of magma to form lava plains.
 - (d) It refers to the metamorphosis of rocks under heat and pressure.
15. Consider the following statements:
1. The onset of an easterly jet stream over peninsular India.
 2. Development of high pressure in the region lying to the north of the Himalayas.
- Which of the above weather phenomenon are observed during the winter season in India?
- (a) 1 only
 - (b) 2 only
 - (c) Both 1 and 2
 - (d) Neither 1 nor 2

16. With reference to the Easterly Jet Streams, consider the following statements:
1. The easterly jet stream shifts southward during the southwest monsoon period.
 2. The easterly jet stream is responsible for bringing the tropical depressions into India.
- Which of the statements given above is/are correct?
- (a) 1 only
 - (b) 2 only
 - (c) Both 1 and 2
 - (d) Neither 1 nor 2
17. Consider the following pairs:
- | <i>Type of</i> | <i>Meaning</i> |
|-------------------|---|
| <i>forestry</i> | |
| 1. Agro-forestry | : Raising of trees and agricultural crops on the same land. |
| 2. Farm forestry | : Raising trees for commercial and non-commercial purposes on their farmlands. |
| 3. Urban forestry | : Raising of trees on public and privately owned lands in and around urban centres. |
- Which of the pairs given above are correctly matched?
- (a) 1, 2 and 3
 - (b) 2 and 3 only
 - (c) 1 and 3 only
 - (d) 1 and 2 only

- 18.** Consider the following statements regarding tides:
1. Two high tides and two low tides occur during every 24-hour period.
 2. They are caused by the earth-moon-sun positions.
 3. They help in removing of polluted water from estuaries.
- Which of the following statements are correct?
- (a) 1 and 2 only
(b) 2 and 3 only
(c) 1 and 3 only
(d) 1, 2 and 3
- 19.** Consider the following statements with reference to the Boltzmann Medal:
1. It is given out once in three years to honour outstanding achievements in statistical physics.
 2. CV Raman is the only India to ever win this medal.
- Which of the statements given above is/are correct?
- (a) 1 only
(b) 2 only
(c) Both 1 and 2
(d) Neither 1 nor 2
- 20.** Consider the following statements regarding alluvial soils:
1. Bhangar is old alluvium and is composed of calcareous deposits called kankar.
 2. Khadar is younger deposits of the flood plains and is fertile.
- Which of the statements given above is/are correct?
- (a) 1 only
(b) 2 only
(c) Both 1 and 2
(d) Neither 1 nor 2

- 21.** Consider the following statements:
1. Stalagmites rise up from the floor of the caves.
 2. The stalactites are formed as hanging from the ceilings.
- Which of the statements given above is/are correct?
- (a) 1 only
(b) 2 only
(c) Both 1 and 2
(d) Neither 1 nor 2
- 22.** With reference to Asiatic Lion, consider the following statements:
1. It is listed as Critically Endangered on the IUCN Red List of species.
 2. In India, it is only found in Gujarat.
 3. SIMBA is an artificial-intelligence-based software that distinguishes patterns to identify Asiatic lions individually.
- Which of the statements given above are correct?
- (a) 1 and 2 only
(b) 2 and 3 only
(c) 1 and 3 only
(d) 1, 2 and 3
- 23.** India's civil nuclear agreements aim to develop mutually beneficial economic, scientific and technical cooperation for the peaceful use of nuclear energy. In this context, with which of the following countries India has civil nuclear agreements?
1. Australia
 2. Canada
 3. Israel
 4. Japan
 5. Vietnam
- Select the correct answer using the code given below.
- (a) 1, 2, 3 and 4 only
(b) 3 and 5 only
(c) 1, 2, 4 and 5 only
(d) 1, 2, 3, 4 and 5

24. Which of the following is/are correct about El-Nino?

1. It is merely an extension of the warm equatorial current which gets replaced temporarily by cold Peruvian current.
2. El-Nino event has led to delay in the onset of southwest monsoon over the Indian-subcontinent.

select the correct answer using the code given below.

- (a) 1 only
- (b) 2 only
- (c) Both 1 and 2
- (d) Neither 1 nor 2

25. Consider the following statements with respect to Kuroshio current:

1. It begins off the coast of Japan and flows northwards.
2. It is a part of North Pacific Ocean gyre.

Which of the statements given above is/are correct?

- (a) 1 only
- (b) 2 only
- (c) Both 1 and 2
- (d) Neither 1 nor 2

26. Consider the following pairs:

<i>Pass</i>	<i>State</i>
1. Zoji La	: Arunachal Pradesh
2. Shipki La	: Himachal Pradesh
3. Jelep La	: Sikkim
4. Bara Lacha La	: Uttarakhand

Which of the pairs given above are correctly matched?

- (a) 1 and 2 only
- (b) 2 and 3 only
- (c) 3 and 4 only
- (d) 1 and 4 only

27. Which of the following statements best describes a 'hydrological drought'?

- (a) A prolonged period of inadequate rainfall along with maldistribution of rainfall over time and space.
- (b) Drastic reduction in the availability of water in storages and reservoirs.
- (c) Soil moisture stress causing crop failure.
- (d) Decrease in productivity of the ecosystem due to a shortage of water.

28. With reference to extra-tropical cyclones in the northern hemisphere, consider the following statements:

1. They move from east to west.
2. They can originate over both land and sea.

Which of the statements given above is/are correct?

- (a) 1 only
- (b) 2 only
- (c) Both 1 and 2
- (d) Neither 1 nor 2

29. With reference to the direction of wind movements, consider the following statements:

1. At the equator, the wind blows perpendicular to the isobars.
2. The coriolis force is maximum at the poles and is absent at the equator.

Which of the statements given above is/are correct?

- (a) 1 only
- (b) 2 only
- (c) Both 1 and 2
- (d) Neither 1 nor 2

30. Which among the following ranges forms the meeting point of Eastern and the Western Ghats?
- (a) Nilgiri Hills
 - (b) Javadi Hills
 - (c) Satmala Hills
 - (d) Nallamalla Hills
31. It is an arid rain-shadow desert and the driest desert in North America. It extends from the Sierra Nevada range to the Colorado Plateau and merges with the Great Basin to the north and the Sonoran Desert to the south. The above passage describes which of the following desert?
- (a) Patagonian desert
 - (b) Mojave desert
 - (c) Gibson desert
 - (d) Great Victoria Desert
32. In which of the following continents the equator does **not** pass through?
- (a) South America
 - (b) Africa
 - (c) Asia
 - (d) Europe
33. This is a vertical cloud with a rounded top and horizontal base, typical of humid tropical regions, associated with up-rising convectional currents. Its great white globular masses may look grey against the sun but it is a fair-weather cloud. Which of the following types of clouds is described in the above passage?
- (a) Cirrus
 - (b) Cumulus
 - (c) Nimbostratus
 - (d) Cumulonimbus

34. Consider the following statements regarding the Himalayan range:
1. The inner Himalayas are known as Himadri or Great Himalayas.
 2. Kanchenjunga, the highest peak in India is part of Inner Himalayas range.
- Which of the statements given above is/are correct?
- (a) 1 only
 - (b) 2 only
 - (c) Both 1 and 2
 - (d) Neither 1 nor 2
35. The Tropic of Cancer passes through which of the following states?
1. Odisha
 2. Tripura
 3. Mizoram
 4. Assam
- Select the correct answer using the code given below.
- (a) 1, 2 and 3 only
 - (b) 2 and 3 only
 - (c) 1, 3 and 4 only
 - (d) 2 and 4 only
36. With reference to Biological Weapons Convention (BWC), consider the following statements:
1. It prohibits the development and use of both biological and toxic weapons.
 2. It was the first multilateral disarmament treaty banning an entire category of weapons of mass destruction (WMD).
 3. It was negotiated by the Conference of the Committee on Disarmament in Geneva, Switzerland.
- Which of the statements given above is/are correct?
- (a) 1 only
 - (b) 2 and 3 only
 - (c) 3 only
 - (d) 1, 2 and 3

37. Consider the following statements regarding Green Hydrogen:
1. Hydrogen naturally existing as a gas in usable quantities is called Green Hydrogen.
 2. India's first Green Hydrogen based Microgrid Project is in Tamil Nadu.
- Which of the statements given above is/are correct?
- (a) 1 only
(b) 2 only
(c) Both 1 and 2
(d) Neither 1 nor 2
38. Which of the following movements can be categorized as slow mass movements?
1. Solifluction
 2. Earth flow
 3. Slump
- Select the correct answer using the code given below.
- (a) 1 only
(b) 2 and 3 only
(c) 1 and 3 only
(d) 1, 2 and 3
39. Consider the following statements with respect to temperature distribution in the oceans:
1. The temperature decreases at a uniform rate with increasing oceanic depth.
 2. The oceans in the northern hemisphere record relatively higher temperatures than in the southern hemisphere.
- Which of the statements given above is/are correct?
- (a) 1 only
(b) 2 only
(c) Both 1 and 2
(d) Neither 1 nor 2

40. With reference to the role of Himalayas in shaping India's climate, consider the following statements:
1. They shield the subcontinent from the cold and chilly northern winds that originate near Arctic circle.
 2. They trap the monsoon winds, forcing them to shed their moisture within the sub-continent.
- Which of the statements given above is/are correct?
- (a) 1 only
(b) 2 only
(c) Both 1 and 2
(d) Neither 1 nor 2
41. Consider the following mountain ranges in India:
1. Mahadeo Hills
 2. Satmala Hills
 3. Kaimur Hills
 4. Ramgarh Hills
- What is the order of the above ranges from West to East direction?
- (a) 2-3-1-4
(b) 2-1-3-4
(c) 3-2-4-1
(d) 1-2-4-3
42. Consider the following statements with respect to the salinity in the oceans:
1. Arabian Sea shows higher salinity trends than the Bay of Bengal.
 2. In the zone of Halocline, salinity rapidly decreases with increasing depth.
- Which of the statements given above is/are correct?
- (a) 1 only
(b) 2 only
(c) Both 1 and 2
(d) Neither 1 nor 2

43. Arrange the following Indian cities from east to west:
1. Raipur
 2. Bhopal
 3. Lucknow
 4. Jaipur
- Select the correct answer using the code given below.
- (a) 3-1-4-2
 - (b) 3-1-2-4
 - (c) 1-3-2-4
 - (d) 1-2-3-4
44. Which of the following is a characteristic feature of the Steppe type of Climate?
1. In the northern hemisphere, only continental climatic type of grasslands are found.
 2. Regions in Southern Hemisphere experiences precipitation all throughout the year due to maritime influence.
- Select the correct answer using the code given below.
- (a) 1 only
 - (b) 2 only
 - (c) Both 1 and 2
 - (d) Neither 1 nor 2
45. With reference to the composition of the atmosphere, consider the following statements:
1. Oxygen becomes negligible beyond the height of 120 km from the surface of the earth.
 2. Carbon dioxide accounts for less than 1 per cent of the total volume of the atmosphere.
- Which of the statements given above is/are correct?
- (a) 1 only
 - (b) 2 only
 - (c) Both 1 and 2
 - (d) Neither 1 nor 2

46. Which of the following Indian states is also referred to as the "Molassis basin"?
- (a) Assam
 - (b) Punjab
 - (c) Mizoram
 - (d) Tamil Nadu
47. Consider the following countries:
1. Spain
 2. Cyprus
 3. Jordan
 4. Syria
- Which of the countries given above share a border with the Mediterranean sea?
- (a) 1, 2, 3 and 4
 - (b) 1, 2 and 3 only
 - (c) 3 and 4 only
 - (d) 1, 2 and 4 only
48. In the context of astronomy, consider the following statements regarding Vigil Mission:
1. It is an initiative of the European Space Agency.
 2. It gives advance warning of asteroids that approach the earth's orbit.
- Which of the statements given above is/are correct?
- (a) 1 only
 - (b) 2 only
 - (c) Both 1 and 2
 - (d) Neither 1 nor 2

49. Consider the following statements with reference to semi-conductors:
1. It conducts more electricity than copper or aluminium.
 2. Its conductivity and other properties can be altered with the introduction of impurities through the doping process.
 3. It is used for making commodity integrated circuit, microprocessors and memory chips.
- Which of the statements given above is/are correct?
- (a) 1 and 2 only
(b) 3 only
(c) 2 and 3 only
(d) 1, 2 and 3
50. Along which of the following plate boundaries, the crust is either destroyed or created?
1. Convergent Boundary
 2. Divergent Boundary
 3. Transform Boundary
- Select the correct answer using the code given below.
- (a) 1 and 2 only
(b) 2 and 3 only
(c) 1 and 3 only
(d) 1, 2 and 3
51. With reference to the Inter-Tropical Convergence Zone (ITCZ), consider the following statements:
1. It is a low pressure zone located at the equator where trade winds converge.
 2. In winter, the ITCZ moves northward, and so the reversal of winds from south and southwest to northeast, takes place.
- Which of the statements given above is/are correct?
- (a) 1 only
(b) 2 only
(c) Both 1 and 2
(d) Neither 1 nor 2

52. It is a natural strait connecting the Black Sea to the Sea of Marmara. It separates the European part from the Asian part of Istanbul, Turkey. Identify the straits using the information given above.
- (a) Bosphorus strait
(b) Yucatan Strait
(c) Bab-el-Mandeb Strait
(d) Bering Strait
53. Which one of the following statements with reference to the Brahmaputra river is *not* correct?
- (a) It originates in the Chemayungdung glacier of the Kailash range near the Mansarovar lake.
(b) The river enters India under the name of Siang.
(c) It finally merges with the river Padma, which falls in the Bay of Bengal.
(d) Manas river is its left bank tributary.
54. With reference to differential heating of land and water, consider the following statements:
1. As compared to land, water heats up or cools down slowly.
 2. Differential heating of land and sea is responsible for the reversal in the direction of monsoon winds.
- Which of the statements given above is/are correct?
- (a) 1 only
(b) 2 only
(c) Both 1 and 2
(d) Neither 1 nor 2

55. With reference to Karewas formation, which of the following statements is correct?
- They are found in the north eastern region of India.
 - They are thick deposits of alluvial deposits brought down by the rivers.
 - They are useful for the cultivation of zafran a local variety of saffron.
 - All of the statements given above are correct.
56. "A geographic region is characterised by Cloudiness and heavy precipitation with high levels of humidity throughout the year. It has no distinct winter season and uniform temperature range throughout the year and Mahogany and Ebony trees are important vegetation of this region". Which of the following geographical region has been described in the passage given above?
- Central Asian region
 - Equatorial region
 - Atlantic Coast of North America
 - Mediterranean region
57. Which of the following UNESCO Biosphere Reserve is the source of three major river systems: the Narmada, the Johilla and the Son River?
- Pachmarhi
 - Achanakmar-Amarkantak
 - Agasthyamalai
 - Similipal

58. "It is a sedimentary rock formed out of deposits of glaciers. The Gondawana system of sediments from India is known to have its counter parts in six different landmasses of the Southern Hemisphere. It provides unambiguous evidence of palaeoclimates and also of drifting of continents."

Which of the following rocks is best described in the above passage?

- Pumice
- Tillite
- Marble
- Quartzite

59. Consider the following pairs:

<i>Drainage pattern</i>	<i>Characteristic</i>
-------------------------	-----------------------

- | | |
|----------------|--|
| 1. Dendritic | : The river originate from a hill and flow in all directions. |
| 2. Centripetal | : The river discharge their waters from all directions in a lake or depression. |
| 3. Trellis | : The primary tributaries of rivers flow parallel to each other and secondary tributaries join them at right angles. |

Which of the pairs given above is/are correctly matched?

- 1, 2 and 3
- 2 and 3 only
- 3 only
- 2 only

- 60.** With reference to the Earth's crust, which of the following statements is/are **not** correct?
1. It is the outer thin layer with a thickness of up to 200 km.
 2. The continental crust is formed by basaltic rocks.
 3. The ocean floors are formed by granitic rocks.
- Select the correct answer using the code given below.
- (a) 1 only
(b) 1 and 2 only
(c) 2 and 3 only
(d) 1, 2 and 3
- 61.** The air is said to be completely saturated when
- (a) absolute humidity is 100gm/m^3 .
(b) relative humidity is 100%.
(c) vapours condense into clouds.
(d) it begins to rain.
- 62.** Which of the following is/are the contributors to the global development, transmission and spread of antimicrobial resistance (AMR)?
1. Poor sanitation, sewage and waste effluent
 2. Effluent and waste from pharmaceuticals manufacturing
 3. Use of antimicrobial and manure in crop production
 4. Releases, effluent and waste in animal production
- Select the correct answer using the code given below.
- (a) 1 and 2 only
(b) 2, 3 and 4 only
(c) 1 and 4 only
(d) 1, 2, 3 and 4

- 63.** Consider the following statements:
1. Spherical shape of other planetary bodies.
 2. Different time of sunrise and sunset at different places.
 3. Shadow of earth on moon during lunar eclipse.
- Which of the statements given above provide an evidence for Earth's sphericity?
- (a) 1 only
(b) 1 and 3 only
(c) 2 and 3 only
(d) 1, 2 and 3
- 64.** With reference to meanders, consider the following statements:
1. They are a channel pattern frequently associated with a river in the young stage.
 2. Jhelum forms a meander near Srinagar in its youthful stage.
- Which of the statements given above is/are correct?
- (a) 1 only
(b) 2 only
(c) Both 1 and 2
(d) Neither 1 nor 2
- 65.** With reference to the Protocol on Inland Water Transit and Trade between India and Bangladesh, consider the following statements:
1. Inland water vessels of one country can transit through any route of the other country.
 2. It is under the overall ambit of the Inland Waterway Authority of India.
- Which of the statements given above is/are correct?
- (a) 1 only
(b) 2 only
(c) Both 1 and 2
(d) Neither 1 nor 2

66. Arrange the following states/UTs in descending order as per the area under mangrove forests:

1. Andaman and Nicobar Islands
2. Maharashtra
3. West Bengal
4. Gujarat

Select the correct answer using the code given below.

- (a) 3-4-1-2
- (b) 3-4-2-1
- (c) 3-1-4-2
- (d) 4-3-2-1

67. Recently, 'Van Gujjars Nomadic Tribe' was seen in news. They are primary inhabitants of:

- (a) Chhattisgarh
- (b) Uttarakhand
- (c) Rajasthan
- (d) Madhya Pradesh

68. Consider the following statements regarding Continental Shelves:

1. They are the sites of major fishing grounds.
2. They contain valuable resources, such as oil and gas and minerals.
3. Trenches occur at the base of Continental shelves.

Which of the statements given above are correct?

- (a) 1 and 2 only
- (b) 2 and 3 only
- (c) 1, 2 and 3
- (d) 1 and 3 only

69. Consider the following statements with reference to the Stree Manoraksha project:

1. It has been launched by NITI Aayog and the Union Ministry of Women and Child Development.
2. It is aimed at extending mental health training to One Stop Centre functionaries across India.

Which of the statements given above is/are correct?

- (a) 1 only
- (b) 2 only
- (c) Both 1 and 2
- (d) Neither 1 nor 2

70. 'Duns' or 'Doons' formations are the characteristic feature of which part of the Himalayas?

- (a) Darjeeling and Sikkim Himalayas
- (b) Arunachal Himalayas
- (c) Eastern Hills and Mountains
- (d) Himachal and Uttarakhand Himalayas

71. Which of the following countries are part of Bucharest Nine or Bucharest Format?

1. Germany
2. France
3. Poland
4. Hungary

Select the correct answer using the code given below.

- (a) 1 and 2 only
- (b) 2 and 3 only
- (c) 3 and 4 only
- (d) 1 and 4 only

72. Which of the following can be attributed to the passing of Tropic of Cancer roughly through the central part of India?

1. As compared to northern India, southern India experiences high temperatures throughout the year with small daily and annual range.
2. Entire India observes overhead sun on the summer solstice of the northern hemisphere.

Select the correct answer using the code given below.

- (a) 1 only
- (b) 2 only
- (c) Both 1 and 2
- (d) Neither 1 nor 2

73. With reference to the Solar system, which of the following statements is/are correct?

1. All planets orbit around the sun in counter-clockwise direction.
2. All other planets have density less than that of Earth.
3. All planets have at least one natural satellite.

Select the correct answer using the code given below.

- (a) 1 and 2 only
- (b) 1 and 3 only
- (c) 2 only
- (d) 2 and 3 only

74. Consider the following statements with reference to the incoming solar radiation:

1. The insolation received by the earth is more at the aphelion than at the perihelion.
2. The equator receives comparatively less insolation than the tropics.

Which of the statements given above is/are correct?

- (a) 1 only
- (b) 2 only
- (c) Both 1 and 2
- (d) Neither 1 nor 2

75. Consider the following local winds:

1. Sirocco
2. Mistral
3. Foehn
4. Chinook

Which of the winds mentioned above blow over the temperate continental climate?

- (a) 3 and 4 only
- (b) 2 and 3 only
- (c) 1, 2 and 4 only
- (d) 1, 2, 3 and 4

76. Which of the following reasons may be attributed to excessive cold in North India during the winter season?

1. Continentality of the north Indian region
2. Snowfall in the Himalayan ranges
3. Cold winds coming from the Caspian Sea

Select the correct answer using the code given below.

- (a) 1 and 2 only
- (b) 2 and 3 only
- (c) 1, 2 and 3
- (d) 1 only

77. Consider the following statements regarding the content delivery network (CDN):

1. It refers to a geographically distributed group of servers that work together to provide fast delivery of Internet content.
2. Content delivery networks in India are regulated by Telecom Regulatory Authority of India.

Which of the statements given above is/are correct?

- (a) 1 only
- (b) 2 only
- (c) Both 1 and 2
- (d) Neither 1 nor 2

78. Which of the following best describes the term “Gravity Anomaly”?
- It refers to regions on Earth’s surface where the value of gravity is zero.
 - It refers to the declining value of gravity on approaching the center of the Earth.
 - It refers to the increasing value of gravity on approaching the center of the Earth.
 - It refers to the difference between the observed value of gravity and the expected value of gravity.

79. Consider the following statements about the Lakshadweep group of islands:

- They are made up of coral deposits.
- They are located off the coast of Tamil Nadu.
- These islands are divided by the 10-degree channel.

Which of the statements given above is/are **not** correct?

- 1 only
- 2 only
- 1 and 2 only
- 2 and 3 only

80. Consider the following pairs:

<i>Types of deserts</i>	<i>Features</i>
-------------------------	-----------------

- | | |
|-----------|---|
| 1. Hamada | : large stretches of undulating sand dunes |
| 2. Reg | : extensive sheets of angular pebbles and gravels |
| 3. Erg | : large stretches of bare rocks |

Which of the pairs given above is/are correctly matched?

- 1 only
- 2 and 3 only
- 2 only
- 1 and 3 only

81. Consider the following statements:

- Equator passes through the Asian continent.
- No Indian river passes through the Tropic of Cancer twice.

Which of the statements given above is/are correct?

- 1 only
- 2 only
- Both 1 and 2
- Neither 1 nor 2

82. Recently seen in the news, SUPACE and SUVAS can be best described as

- advanced ISRO projects aiming to develop small satellite launch vehicles.
- artificial intelligence tools for increasing the efficiency of Indian judiciary.
- sports program to increase the number of Indian athletes qualifying for olympics.
- projects for easing the access of credit for Micro Small and Medium Enterprises in India.

83. Consider the following statements about Duar formation:

- They are alluvial floodplains found in Darjeeling and Sikkim Himalayas.
- Sankosh river divides it into Eastern and Western Duars.
- They are useful for plantation of tea.

Which of the statements given above is/are correct?

- 1 and 2 only
- 2 and 3 only
- 3 only
- 1, 2 and 3

- 84.** Consider the following rivers:
1. Brahmaputra
 2. Krishna
 3. Mahanadi
- Which of the following is the correct decreasing order of catchment area (in India) of the rivers given above?
- (a) 1-2-3
 - (b) 1-3-2
 - (c) 2-1-3
 - (d) 2-3-1

- 85.** Which of the following statements is/are correct with reference to the anti-cyclones?
1. They are characterized by clear skies and calm air.
 2. Winds in anti-cyclones blow anticlockwise in the northern hemisphere and clockwise in the southern hemisphere.

Select the correct answer using the code given below.

- (a) 1 only
 - (b) 2 only
 - (c) Both 1 and 2
 - (d) Neither 1 nor 2
- 86.** This National Park is located along the Western Ghats in the state of Karnataka. Three important rivers, the Tunga, the Bhadra, and the Netravati are said to have their origin here. The animals found there include malabar civets, wild dogs, sloth bears and spotted deer.
- The above passage describes which of the following national parks?
- (a) Nameri National Park
 - (b) Eravikulam National Park
 - (c) Kudremukh National Park
 - (d) Bannerghatta National Park

- 87.** Consider the following statements with reference to the structure of the atmosphere:
1. Thickness of the troposphere is greatest at the equator.
 2. The temperature within the mesosphere increases with the increase in altitude.
- Which of the statements given above is/are correct?
- (a) 1 only
 - (b) 2 only
 - (c) Both 1 and 2
 - (d) Neither 1 nor 2

- 88.** Consider the following statements with reference to peatlands:
1. They occupy more than 10 per cent of the global land surface.
 2. They have waterlogged conditions which limit microbial decay of dead plant materials rich in carbon dioxide.
- Which of the statements given above is/are correct?
- (a) 1 only
 - (b) 2 only
 - (c) Both 1 and 2
 - (d) Neither 1 nor 2

- 89.** Which of the following theories is/are related to the origin of universe?
1. Big Bang Theory
 2. Hoyle's Steady State Theory
 3. The Big Splat Theory
- Select the correct answer using the code given below.
- (a) 1 only
 - (b) 1 and 2 only
 - (c) 2 and 3 only
 - (d) 1, 2 and 3

90. Consider the following statements with regard to the effects of propagation of earthquake waves:

1. Primary waves create troughs and crests in the material.
2. Secondary waves cause stretching and squeezing of the material.

Which of the statements given above is/ are correct?

- (a) 1 only
- (b) 2 only
- (c) Both 1 and 2
- (d) Neither 1 nor 2

91. Consider the following statements regarding geomorphic processes:

1. The exogenic forces derive their energy mainly from within the earth while the endogenic forces derive their energy from the atmosphere.
2. The actions of exogenic forces continuously elevate the parts of the earth's surface, while actions of endogenic forces leads to wearing down of relief and filling up of depressions.

Which of the statements given above is/are correct?

- (a) 1 only
- (b) 2 only
- (c) Both 1 and 2
- (d) Neither 1 nor 2

92. To reduce dependence on the import of oilseeds, the Union budget 2022-23 has proposed a comprehensive scheme to increase domestic production of oilseeds should be implemented. In this context, consider the following statements:

1. The import of edible oil has steadily increased in the last 5 years.
2. Palm oil account for 60 percent of total imported edible oil.

Which of the statements given above is/are correct?

- (a) 1 only
- (b) 2 only
- (c) Both 1 and 2
- (d) Neither 1 nor 2

93. Which of the following statements is *not* correct with reference to the Western Disturbances?

- (a) Their arrival in India is characterized by a sudden drop in the prevailing night temperature.
- (b) It is highly beneficial for rabi crops in Northern India.
- (c) They are shallow cyclonic depressions originating over the eastern Mediterranean Sea.
- (d) They are steered in India by Westerly Jet Streams

94. Local storms of a hot weather season in India assist in the growth of which of the following crops?

1. Coffee
2. Tea
3. Jute
4. Mustard

Select the correct answer using the code given below.

- (a) 1, 2 and 3 only
- (b) 1, 2, 3 and 4
- (c) 2 and 3 only
- (d) 1 and 4 only

95. Consider the following pairs:
- | <i>Ocean Current</i> | | <i>Nature</i> |
|-----------------------|---|---------------|
| 1. Oyashio Current | : | Cold |
| 2. Kuroshio Current | : | Warm |
| 3. California Current | : | Warm |
- Which of the pairs given above are correctly matched?
- (a) 1 and 3 only
(b) 1 and 2 only
(c) 2 and 3 only
(d) 1, 2 and 3
96. Which of the following tourist places are also famous volcanic Hot Spots?
1. Galapagos Island
 2. Hawaii
 3. Yellowstone National Park
- Select the correct answer using the code given below.
- (a) 1 and 2 only
(b) 2 and 3 only
(c) 1 and 3 only
(d) 1, 2 and 3
97. The terms *Roaring Forties*, *Furious Fifties* and *Shrieking Sixties* are used in relation to
- (a) ocean currents
(b) jet streams
(c) easterly winds
(d) westerly winds
98. In the context of Central Bureau of Investigation (CBI), 'General Consent', recently in news, implies
- (a) that case-specific permission to investigate cases within a state is not required.
(b) that the appointment of CBI Director is done by consensus rather than by majority vote.
(c) that the investigation is carried out under the monitoring of the Supreme Court or a High Court.
(d) consent by the accused to cooperate in the investigation.

99. As one moves from Equator towards Poles, one will observe:
1. Decrease in length of longitudes
 2. Decrease in distance between longitudes
 3. Increase in altitude
- Which of the statements given above is/are correct?
- (a) 1 and 2 only
(b) 2 only
(c) 1 and 3 only
(d) 2 and 3 only
100. Consider the following statements regarding the Land Port Authority of India:
1. It is a statutory body under the Ministry of Road Transport and Highways.
 2. It is entrusted with the task of building land ports on India's borders and providing infrastructure facilities to facilitate seamless movement of cargo.
- Which of the statements given above is/are correct?
- (a) 1 only
(b) 2 only
(c) Both 1 and 2
(d) Neither 1 nor 2
